

Part 573 Safety Recall Report

22T-007

Manufacturer Name : Sumitomo Rubber Industries, Ltd.

Submission Date : MAY 06, 2022

NHTSA Recall No. : 22T-007

Manufacturer Recall No. : NR

Manufacturer Information :

Manufacturer Name : Sumitomo Rubber Industries, Ltd.

Address : 6-9,3-Chome,
Wakinohama-Cho, Chuo-Ku Kobe 00
651-0072

Company phone : 999

Population :

Number of potentially involved : 6,993

Estimated percentage with defect : 2 %

Tire Information :

Tire Brand 1 : Falken

Tire Line : RI51S

Tire Size : 315/80R 22.5 156/150L

Descriptive Information : The recall population for this tire line and size is 113. The population is based upon production and shipping records.

Production Dates : MAY 24, 2020 - MAY 30, 2020

Description of Noncompliance :

Description of the Noncompliance : Subject tires that complete the endurance test in FMVSS 119 S7.2 are susceptible to developing visible deformation in a single, small area of the bead (near the upper edge of a rim flange). This deformation may violate FMVSS 119 S6.1.2(a), which states that, following the endurance test, “[t]here shall be no visual evidence of tread, sidewall, ply, cord, innerliner, or bead separation, chunking, broken cords, cracking, or open splices.”

FMVSS 1 : 119 - New pneumatic tires- other than passenger cars

FMVSS 2 : NR

Description of the Safety Risk : If the deformation remains undetected, and if the condition causes a bead separation that affects the structural integrity of the tire, there may be a potential for the bead to separate. If the bead separation occurs in a manner that affects vehicle stability, there may be an increased risk of a crash. No accidents, injuries, or deaths have been reported to date as a result of this condition.

Description of the Cause : Joint-tape rubber used to join the two ends of the inner liner may have been misplaced during the tire-building process. Additionally, due to a change in the joint-tape composition, the rubber's adhesiveness was altered. As a result, the joint-tape rubber in the subject tires may protrude beyond the designated area for the joint-tape rubber.

Identification of Any Warning that can Occur : A deformation will be visible on the sidewall near the bead.

Chronology :

Please see the attached document for SRI's Chronology.

Description of Remedy :

Description of Remedy Program : Tire owners will be contacted and asked to bring their vehicle/tires to an authorized dealer for replacement at no cost. Owners who registered their tires will be notified directly by mail. For those owners who did not register their tires, SRI will work with independent dealers or distributors to obtain owner information, where available. This program to provide remedy tires without charge to the owner will be conducted through November 21, 2022. Dealers performing the replacement of recalled tires will be notified of their responsibilities in accordance with 49 CFR part 573.6(c)(9). All subject tires remain under the manufacturer's warranty. Therefore, pursuant to 49 CFR 577.11(e), SRI requests an exemption from the reimbursement plan requirements.

How Remedy Component Differs from Recalled Component : Replacement tires will be manufactured with joint tape that was properly placed during the manufacturing process.

Identify How/When Recall Condition was Corrected in Production : The coexistence of the factors ended at the Shirakawa plant on June 2, 2020 and at the Miyazaki plant on June 9, 2020. Accordingly, tires manufactured on and after June 3, 2020 at the Shirakawa plant do not contain the defect and tires manufactured on and after June 10, 2020 at the Miyazaki plant do not contain the defect.

Recall Schedule :

Description of Recall Schedule : All known customers, distributors and dealers will receive notification of the recall, instructions on how to identify the subject tires, information regarding the removal of the subject tires from service, and instructions on the return and disposal of the subject tires.

Planned Dealer Notification Date : MAY 11, 2022 - MAY 18, 2022

Planned Owner Notification Date : MAY 20, 2022 - MAY 20, 2022
