**Descriptive Information :** On April 4, 2022, OCC began reviewing claim data from random Forest River manufacturing plants to ascertain if there are any quick disconnect failures in the field. On April 5, 2022, OCC finished reviewing claim data. OCC met with the partner supplier and presented Forest River's data to them. The data showed a significant trend upwards beginning in Quarter 3 of 2021, therefore Forest River decided to begin the scope date at July 1, 2021. Forest River decided to end the scope on March 31, 2022, after Forest River had asked the supplier to verify stock in the plants.

A-1 On April 21, 2022, Forest River's Office of Corporate Compliance received a notice from Flex-Tech indicating that the scope shall be expanded from March 31, 2022, to April 20, 2022; due to continued quick disconnect cracks and possible identification of contamination and/or porosity of the brass, which leads to cracks. On April 21, 2022, Forest River put a stop ship on any vehicle that has a Flex-Tech Quick Disconnect installed on it.

Identify How/When Recall Condition was Corrected in Production :

On March 31, 2022, the supplier indicated that they had and were conducting immediate and complete internal retraining. In addition, on April 5, 2022, Forest River began its own internal inspection process of the supplier's components.

A-1 On April 21, 2022, Forest River's Office of Corporate Compliance received a notice from Flex-Tech indicating that the scope shall be expanded from March 31, 2022, to April 20, 2022; due to continued quick disconnect cracks and possible identification of contamination and/or porosity of the brass, which leads to cracks. On April 21, 2022, Forest River put a stop ship on any vehicle that has a Flex-Tech Quick Disconnect installed on it. These vehicles must have the quick disconnect replaced with another manufacturer/suppliers quick disconnect before they may leave Forest River possession.

## Recall Schedule :

Description of Recall Schedule : Forest River has the utmost urgency in our recalls. Forest River will send suspected VIN numbers to our third party vendor that is licensed to pull data on the current owner of the vehicles (as needed) once a formal NHTSA I.D. is provided. Forest River intends on pushing the mailing out as soon as NHTSA provides any correction(s) and an Acknowledgement Letter.
