Component Description : 18" non leaching LPG hose

Component Part Number : I4TC18MP4POLNE

Supplier Identification :**Component Manufacturer**

Name : Fairview Fittings

Address : 3777 Commerce Court
Wheatfield New York 14120

Country : United States

Chronology :

On October 19, 2022, during final finish LPG check, it was noticed there were some LPG regulator hoses leaking at the non swiveling end of hose. Investigation ensued, and it was found that Tiffin had to order some Fairview LPG regulator lines due to supply issues with Marshall brand hoses. Fairview hoses were leaking. Production was supposed to finish out the inventory of Marshall before using Fairview. However, the Fairview were mistakenly added in the mix. Therefore, there were some leaking and some not depending on which hose unit had. On October 26, 2022 Tiffin Safety Committee voted to do a recall.

Description of Remedy :

Description of Remedy Program : Inspection of the LPG hose to determine which brand hose unit has installed. All Fairview hoses will be replaced with a Marshall brand hose at no charge to the owner, and any reimbursements will be made by customer submitting invoice to Tiffin Motorhomes.

How Remedy Component Differs from Recalled Component : The remedied component will have a white tag that says Marshall on it. The recalled component has a silver tag that states Fairview.

Identify How/When Recall Condition was Corrected in Production : All the inventory of hoses were inspected and the Fairview hoses removed from the warehouse and from production. All production units and work in progress units were inspected and corrected if needed.

Recall Schedule :

Description of Recall Schedule : Owners and dealers will be notified of the recall repair and advised that the repair will be performed at no charge to customer.
