

# Part 573 Safety Recall Report

## 22V-884

**Manufacturer Name :** Winnebago Towable

**Submission Date :** JAN 18, 2023

**NHTSA Recall No. :** 22V-884

**Manufacturer Recall No. :** NR

### Manufacturer Information :

Manufacturer Name : Winnebago Towable

Address : 201 14th Street  
Middlebury IN 46540

Company phone : 825-5250

### Population :

Number of potentially involved : 63

Estimated percentage with defect : 100 %

### Vehicle Information :

Vehicle 1 : 2021-2022 Winnebago Minnie

Vehicle Type : TRAILERS

Body Style : OTHER

Power Train : NR

Descriptive Information : Impacted units were identified using recorded production trailer weight data which indicated the specific trailers that may have inaccurate weights entered and incorrect cargo carrying capacity labels.

Production Dates : JUN 29, 2021 - AUG 04, 2022

VIN Range 1 : Begin : NR

End : NR

☐ Not sequential

Vehicle 2 : 2021-2022 Winnebago Voyage

Vehicle Type : TRAILERS

Body Style : OTHER

Power Train : NR

Descriptive Information : Impacted units were identified using recorded production trailer weight data which indicated the specific trailers that may have inaccurate weights entered and incorrect cargo carrying capacity labels.

Production Dates : JUL 15, 2020 - MAY 31, 2022

VIN Range 1 : Begin : NR

End : NR

☐ Not sequential

### Description of Noncompliance :

Description of the Noncompliance : The cargo carrying capacity label (CCC) on the trailer could show an incorrect load carrying capacity, which could lead to an unintentional overloading of the vehicle. An overloaded trailer can increase the risk of a crash. This is a non-compliance with a 49 CFR 571.110 / 49 CFR 571.120.

FMVSS 1 : 110 - Tire selection and rims

FMVSS 2 : 120 - Wheels and rims- other than passenger cars

Description of the Safety Risk : Due to inaccurate trailer weight, an owner could unintentionally load the travel trailer beyond it's intended capacity.

Description of the Cause : Travel trailer weight data was entered incorrectly in the production process which resulted in an inaccurate cargo carrying capacity.

Identification of Any Warning that can Occur : Not applicable

### Involved Components :

Component Name 1 : Federal Label

Component Description : Label-Unit Fed Tire 4x6

Component Part Number : 20174113000

### Supplier Identification :

#### Component Manufacturer

Name : NR

Address : NR

NR

Country : NR

### Chronology :

In late August 2022, Winnebago investigated a customer complaint regarding an alleged incorrect weight label. During that investigation, it was determined that the cargo carrying capacity label on that trailer was incorrect. A subsequent broader investigation was initiated to determine if there were other coaches potentially impacted. Upon completion of that investigation, the Product Safety Committee met to review the findings and decided that incorrect cargo carrying capacity labels posed a non-compliance with a federal standard 49 CFR 571.110 and 120 and therefore initiated a voluntary non-compliance recall.

Winnebago is not aware of any accidents or injuries resulting from this non-compliance.

### Description of Remedy :

Description of Remedy Program : New cargo carrying capacity labels will be printed and shipped to customers with impacted serial numbers.

Reimbursement requests will fall under the general reimbursement plan on file with NHTSA.

How Remedy Component Differs from Recalled Component : The new labels will have the correct cargo carrying capacity listed.

Identify How/When Recall Condition was Corrected in Production : All trailers in inventory were inspected and the process was updated to prevent errant trailer weight entries.

### Recall Schedule :

Description of Recall Schedule : Dealers and customers will be notified on or before the dates listed.

Planned Dealer Notification Date : DEC 01, 2022 - DEC 01, 2022

Planned Owner Notification Date : JAN 30, 2023 - JAN 30, 2023

\* NR - Not Reported
