Release Number: 001

Recall Summary

Name of Products: MW Co. WELD Off Road 17x9, + 0, 8 lugs Crux Wheels Product No. W12079017500 or W12079018500 or W12079082500 or W11979017500 or W11979018500 or W11979082500 purchased between December 2021 and the Release Date.

Description of defect or noncompliance: We have learned of an event in which it was claimed that the WELD Off Road 17x9, + 0, 8 lugs Crux Wheels failed. As we took safety very seriously we run different test on this wheel model and size and we concluded that these wheels may be susceptible to cracking.

Evaluation of the risk to motor vehicle safety:

If a wheel crack remains undetected, it could eventually lead to separation of the wheel from the rim, which could potentially cause a loss of vehicle control. The separated components may also damage the adjacent wheel end, suspension or body panel components and result in hazardous road debris. To date, there have been no reports of accidents, injuries, or fatalities related to this condition, and only minor property damage (i.e., damage to the wheel end and adjacent components) has been reported in connection with this issue.

Remedy: Replace or Refund

Distributors and retailers should immediately quarantine the products, cease sales, and return the wheels to MW Co. Distributors. Contact MW Co. at 1-888-576 9638 to arrange the return of the wheels. Retailers should also notify MW Co. of the customer list. To the extent that a customer list is not provided to us, distributors and retailers should send the customer recall announcement to the customer.

Remedy will be available as of December 2022 with modified wheels with same design and fitment.

Advisory: It is a violation of federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment covered by this notification under a sale or lease until the defect or noncompliance is remedied.
