

**\* \* TECHNICAL INFORMATION NOTICE \* \***

**DATE:** February 7, 2022  
**TO:** Mitsubishi Motors US and Puerto Rico Dealer Principals, General Managers, Sales Managers, Service Managers, and Parts Managers  
**RE:** FUEL PUMP – SAFETY RECALL CAMPAIGN  
**TIN NO.** TIN-22-SR-001

\*\*\*\*\*  
**AFFECTED VEHICLES:** Certain 2022 Outlander vehicles

**PURPOSE**

A recall campaign will be released today for the replacement of the fuel pump with a countermeasure part on certain 2022 Outlander vehicles built after July 2021. The Recall Bulletin outlining the repair procedure will be available today on MEDIC and MDL.

The commutator and wires in the fuel pump may not have been fused together correctly during production, resulting in poor continuity. As a result, the commutator and the brushes in the fuel pump could wear abnormally in use, causing the fuel pump to be inoperative. If the fuel pump does not operate, the engine may stall while driving, which increases risk of a crash.

Notification letters are scheduled to begin mailing to owners of affected vehicles on **March 18, 2022**, requesting they contact their local Authorized Mitsubishi dealership to schedule an appointment to have this recall performed.

A very limited number of parts are currently available, and an initial allocation of parts in inventory will be made to dealers. An additional allocation will be made at the time of customer notification which is anticipated to be mid-March 2022. No other parts are currently available for order.

Affected new vehicle inventory VINs can be reviewed on the Mitsubishi Dealer Link in the Most Recent: Open Campaign List available under the service section of "e-reports." **Dealers must review the Warranty Superscreen to confirm if any vehicles in their new or used vehicle inventories are affected and complete this campaign prior to delivering them.** When checking for the applicability of this campaign (**C2201R**), please check for and complete any other open campaigns. Always obtain the customer's approval before completing a campaign on a customer-owned vehicle.

***IMPORTANT***

**Affected new or used inventory vehicles must be repaired before the vehicle is sold/delivered. Dealers must check their inventory vehicles' VINs on the Warranty Superscreen to verify whether the vehicle is involved in this recall campaign. It is a violation of Federal law for a dealer to sell/deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by the notification under a sale or lease until the defect or noncompliance is remedied.**
