FOLLOW-UP NOTICE

ATTENTION: ALL DEALER PRINCIPALS

THIS IS A FOLLOW-UP NOTICE TO ADVISE THAT THE REMEDY PART IS NOW AVAILABLE FOR K900 VEHICLES.

Kia America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign on certain 2016-2018 MY K900 vehicles manufactured from April 21, 2015 through November 6, 2017 and all 2014-2016 MY Sportage vehicles manufactured from September 30, 2013 through November 16, 2015.

An engine compartment fire may occur in the area where the Hydraulic Electronic Control Unit (HECU) is located. The exact cause of fire remains unknown. However, it is believed that the HECU may experience an internal electrical short circuit that could result in overcurrent. An electrical short circuit in the HECU increases the risk of an engine compartment fire while parked or driving. A fire increases the risk of injury.

Dealers will install a new fuse with a different capacity to prevent an overcurrent condition in the HECU's electrical circuit board. Kia recommends that vehicle owners park their vehicles outdoors and away from other vehicles or structures until the recall repair has been performed.

Your Service Manager was sent a copy of the follow-up owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of affected vehicles. **Kia will mail follow-up notices to the affected K900 vehicle owners on April 26, 2022.** Sportage vehicle owners will receive a follow-up letter by end of Summer 2022.
