 2020-2021 Navigator, 2020-2022 Super Duty Vehicles

New! REASON FOR THIS SUPPLEMENT

- *A supply of alternative wiper arms have been identified for the 2021 F-150 ONLY.*

AFFECTED VEHICLES

Vehicle	Model Year	Assembly Plant	Build Dates
Expedition/ Navigator	2020-2021	Kentucky Truck Plant	August 1, 2020 through October 20, 2021
F-150	2020	Dearborn Truck Plant	August 1, 2020 through September 5, 2020

Super Duty	2020-2022	Kentucky Truck Plant	August 1, 2020 through October 20, 2021
Super Duty	2020-2022	Ohio Assembly Plant	August 3, 2020 through October 20, 2021

US population of affected vehicles: 651,298. Affected vehicles are identified in OASIS and FSA VIN Lists.

Note: Some vehicles may be in the process of being repaired at the plant. Monitor OASIS before opening an RO and/or beginning a repair. Parts purchased for an FSA can be returned for credit if required. See the EXCESS STOCK RETURN details in Labor Allowances and Parts Ordering Information for more information.

REASON FOR THIS SAFETY RECALL

In some of the affected vehicles, it may be possible for the vehicle wiper arms to perform erratically. This condition can potentially lead to a wiper arm that becomes inoperable and/or separated from the vehicle which can result in reduced visibility in certain conditions.

SERVICE ACTION

DO NOT DEMONSTRATE OR DELIVER any new in-stock vehicles involved in this safety recall. Dealers are to replace wiper arms on vehicles with manufacture build dates prior to June 7, 2021. Also, inspect wiper arms on vehicles with a manufacture build date on or after June 7, 2021, and if necessary, replace both left-hand and right-hand wiper arms. A new wiper blade will be installed ONLY if the wiper arm is missing. This service must be performed on all affected vehicles at no charge to the vehicle owner.

INTERIM SERVICE REPAIR FOR FLEET RENTAL VEHICLES ONLY

If wiper arms fail the inspection and new wiper arms are not available, Dealers can implement an interim repair of gluing the wiper arm key in place. This is for fleet rental vehicles only.

NOTE: Per policy, an interim repair can be performed on fleet rental vehicles only so the vehicle can be rented (but may not sell or lease). This is NOT a permanent fix. Final repair will still need to be performed. The wiper arms should be replaced as soon as new arms are available.

Parts are not yet available to repair all vehicles. Until parts are available to repair all vehicles, dealers may only order parts and repair vehicles, which are customer-owned and currently in the dealership.

OWNER NOTIFICATION MAILING SCHEDULE

Part available letters are being phased mailed to customers. Dealers should repair any affected vehicles that arrive at their dealerships, whether or not the customer has received a letter.

PLEASE NOTE:

Federal law requires dealers to complete this recall service before a new vehicle is delivered to the buyer or lessee. Violation of this requirement by a dealer could result in a civil penalty of up to \$26,315 per vehicle. Correct all vehicles in your new vehicle inventory before delivery.

Owners are directed to seek reimbursement through authorized dealers or, at their option, directly through Ford Motor Company at P.O. Box 6251, Dearborn, MI 48121-6251.

PARTS RETENTION, RETURN, & SCRAPPING

Follow the provisions of the Warranty and Policy Manual, Section 1 - WARRANTY PARTS RETENTION AND RETURN POLICIES. If a replaced part receives a scrap disposition, the part must be scrapped by all applicable local, state, and federal environmental protection and hazardous material regulations. Federal law prohibits selling motor vehicle parts or components that are under safety, compliance, or emissions recall.

EXCESS STOCK RETURN

The excess stock returned for credit must have been purchased from Ford Customer Service Division by Policy Procedure Bulletin 4000.

REPLACED FSA PARTS INSPECTION AND SIGN OFF

Effective March 1st, 2021, all parts replaced as part of an FSA repair with a repair order open date of March 1st, 2021, or later must be inspected and signed off on the repair order by a member of your dealer fixed operations management team or an employee of the task has been delegated to. If the task is to be delegated to a non-management employee, the employee needs to be someone other than the technician who completed the repair and needs to understand the importance of completing this task consistently and accurately.

- All parts replaced as part of an FSA repair should be returned to the parts department following the Warranty Parts Retention and Return Policies.
- Inspect the replaced parts to verify the FSA repair was completed.
- If the FSA repair is found to be complete, the designated employee signs the repair order line or parts return stamp area (electronic or hand signed) for the FSA repair indicating the parts were inspected and validated to have been replaced.
- After the parts have been inspected, they should be handled based on the guidance in the parts status report in the Online Warranty System (Hold, Return, CORE, Scrap, etc.). Please visit FMCDEALER > PARTS & SERVICE > WARRANTY ADMINISTRATION & WARRANTY PARTS RETURN for the latest [Immediate Scrap List](#) information.
- This process is subject to review during warranty audits for FSA repairs with a repair order open date of March 1st, 2021, or later. Any eligible FSA claims requiring parts replacement found not to have been inspected and signed off during a warranty audit will be subject to chargeback and consideration for enrollment into the Dealer Incomplete Recall Repair Process.

Note: Other approvals (electronic or handwritten) for add-on repair lines, dealer-owned vehicle repairs, and repeat repairs do not qualify as FSA parts inspection approvals. The post-repair FSA parts inspection process (electronic or handwritten) is independent of other warranty approval requirements. The approval by the designated employee implies that the FSA parts were found to be replaced and must be able to be identified on the Repair Order. If multiple FSAs require approval on a single Repair Order, each applicable occurrence will require individual post-repair approval by the designated employee.
