Campaign No. :	Campaign Desc. :	Update Rear View Camera Software
2022040016p	PDGKOMRUE	
<p>This is to notify you of an Initial Recall Campaign to update the Rear View Camera software on approximately 690 MY19-20 Freightliner Sprinter vans. The recall campaign will be visible on the www.safercar.gov website and may generate questions from customers. All affected VINs will be flagged "PENDING" in VMI and cannot be sold.</p>		
Background		
Issue	<p>Mercedes-Benz AG ("MBAG"), the manufacturer of Freightliner Sprinter vans, has determined that on certain Sprinter vehicles, the display function of the rearview camera might be impaired. In some instances the rearview image might not be displayed in the central display after engaging the reverse gear. Instead, the central display would continue to display the existing screen image (e.g. navigation, radio, etc.) or display a black screen with a message warning of the inoperability of the rearview camera to display an image. There is no deactivation of the rearview camera, or frozen rearview camera image. A rearview camera image might not be available within 2.0 seconds (as required by FMVSS 111 S5.5.3) as the vehicle begins to back up, which might impair rear visibility which could increase the risk of a crash.</p>	
What We're Doing	<p>DVUSA is conducting a voluntary recall. An authorized Freightliner Sprinter dealer will update the software for the rearview camera to current product specifications.</p>
