ATTENTION: ALL DEALER PRINCIPALS

Kia America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign on certain 2022 MY EV6 vehicles manufactured from November 17, 2021 through April 7, 2022.

The subject vehicles are equipped with a shift-by-wire system that contains a Shifter Control Unit (SCU) and a parking pawl actuator motor. If a voltage fluctuation occurs when the vehicle is off and in the parked position, the command signal from the SCU to the parking pawl actuator may be affected, resulting in the temporary disengagement of the parking mechanism and potential vehicle rollaway. Vehicle rollaway increases the risk of a crash and/or injuries.

Dealers will update the Shifter Control Unit (SCU) software to prevent any temporary disengagement of the parking mechanism.

Your Service Manager was sent a copy of the owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of affected vehicles. Kia will start mailing notices to the affected vehicle owners on **May 25, 2022**
