

David J. Johnson Director Service Engineering Operations 48121 Ford Customer Service Division Ford Motor Company P. O. Box 1904 -Dearborn, Michigan

July 18, 2022

TO: All U.S. Ford and Lincoln Dealers

SUBJECT: NEW VEHICLE DEMONSTRATION / DELIVERY HOLD – Safety Recall 22S48 – Supplement #1

Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Heavy-Duty Cooling Fan Underhood Fire

REF: NEW VEHICLE DEMONSTRATION / DELIVERY HOLD – Safety Recall 22S36 – Supplement #3 Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Standard-Duty Cooling Fan Underhood Fire

New! REASON FOR THIS SUPPLEMENT

- Updated rental guidelines to include pick-up and delivery, towing, alternative transportation, and mobile service for all vehicles.
- Updated labor operation codes
- Updated claiming information

AFFECTED VEHICLES

Vehicle	Model Year	Assembly Plant	Build Dates
Expedition	2021	Kentucky Truck	July 28, 2020 through August 31, 2021
Navigator	2021	Kentucky Truck	July 30, 2020 through August 31, 2021

Affected vehicles are identified in OASIS and FSA VIN Lists.

REASON FOR THIS SAFETY RECALL

Certain vehicles built during this time frame may pose a risk of underhood fire, including while the vehicle is parked, and the engine is off. Ford Motor Company has developed a remedy for those vehicles equipped with a Heavy-Duty Cooling Fan. Until the repair is complete, affected vehicles should be parked outside away from structures and other property.

New! SERVICE ACTION

Note: Owners should be instructed to park their vehicle outside away from structures and other vehicles due to the risk of fire until this repair is completed.

Before demonstrating or delivering any new in-stock vehicles involved in this recall, dealers are to inspect the battery junction box (BJB) for damage, replace as required per the technical instructions and remove a ground wire from the BJB. This service must be performed on all affected vehicles at no charge to the vehicle owner.

To assist vehicle owners to have this repair completed dealers are to:

- Proactively contact owners to arrange for a mobile repair at the owner's location, or
 - Arrange to pick-up the owner's vehicle and drive it to the dealership for repairs (rentals are authorized – see Rental Vehicles)
- Re-deliver the owner's vehicle after repairs have been completed.
- Pick-up and delivery, towing, alternative transportation, and mobile service should be made available for all customers. Refer to the Rental and Claiming sections for further details.

New! Administrative Allowance:

An administrative allowance of one hour is available to assist dealers in prioritizing these repairs, and create a flawless service experience for our customers (this administrative allowance expires August 15, 2022).

OWNER NOTIFICATION MAILING SCHEDULE

Owner letters are expected to be mailed the week of July 18, 2022. Dealers should repair any affected vehicles that arrive at their dealerships, whether or not the customer has received a letter. Dealers should also instruct customers to park their vehicles away from structures and other property due to the risk of fire until the repair has been completed.

PLEASE NOTE:

Federal law requires dealers to complete this recall service before a new vehicle is delivered to the buyer or lessee. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Correct all vehicles in your new vehicle inventory before delivery.

QUESTIONS & ASSISTANCE

For questions and assistance, contact the Special Service Support Center (SSSC) via the SSSC Web Contact Site. The SSSC Web Contact Site can be accessed through the Professional Technician System (PTS) website using the SSSC link listed at the bottom of the OASIS VIN report screen or listed under the SSSC tab.

Sincerely,

Af Johnson

David J. Johnson

Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Heavy Duty Cooling Fan Underhood Fire

New! MOBILE REPAIR RECOMMENDATIONS

- Confirm with customer a mobile repair is feasible.
- Check OASIS prior to going to the customer's home or business to confirm if any other outstanding FSA needs to be completed.
- Transportation due to the simplicity of this repair, a specialty vehicle is not required.

MOBILE REPAIR ADDITIONAL INFORMATION

Please ensure the technician brings the following to the mobile repair destination:

- Printed Technical Instructions.
- Printed Repair/Work Order or any other necessary documentation as customer copy(s)
 Documents could also be emailed to the customer.
- Shirt/uniform and vehicle graphic with dealership or Ford logos are recommended.
- Reference technical instructions for a complete list of recommended tools and cleaning supplies.

MOBILE REPAIR QUESTIONS AND ASSISTANCE

- For questions and assistance, contact the Special Service Support Center (SSSC) via the SSSC Web Contact Site. Work with Dealership warranty administrator to create a SSSC contact ID#.
- Once an SSSC agent responds to the new contact ID#, you may opt to call the SSSC hotline: (800) 325-5621.

OASIS ACTIVATION

OASIS was activated on July 8, 2022.

FSA VIN LISTS ACTIVATION

FSA VIN Lists were available through <u>https://web.fsavinlists.dealerconnection.com</u> on July 8, 2022. Owner names and addresses will be available by August 5, 2022.

NOTE: Your FSA VIN Lists may contain owner names and addresses obtained from motor vehicle registration records. The use of such motor vehicle registration data for any purpose other than in connection with this recall is a violation of law in several states, provinces, and countries. Accordingly, you must limit the use of this listing to the follow-up necessary to complete this recall.

SOLD VEHICLES

- Ford has not issued instructions to stop selling/delivering or driving used vehicles under this safety recall. Owners should contact their dealer for an appointment to have their vehicles remedied as soon as practicable. Owners can continue to safely drive their vehicles.
- Immediately contact any of your affected customers whose vehicles are not on your VIN list but are identified in OASIS. Give the customer a copy of the Owner Notification Letter (when available) and schedule a service date.
- Correct other affected vehicles identified in OASIS which are brought to your dealership.
- Dealers are to prioritize repairs of customer vehicles over repairs of new and used vehicle inventory.

STOCK VEHICLES

- Correct all affected units in your new vehicle inventory before delivery.
- Use OASIS to identify any affected vehicles in your used vehicle inventory.

Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Heavy Duty Cooling Fan Underhood Fire

DEALER-OPERATED RENTAL VEHICLES

The Fixing America's Surface Transportation (FAST) Act law effective June 2016 prohibits a rental company from selling, renting or leasing vehicles subject to a safety or compliance recall. Please consult your legal counsel for legal advice.

TITLE BRANDED / SALVAGED VEHICLES

Affected title branded and salvaged vehicles are eligible for this recall.

OWNER REFUNDS

- This safety recall must still be performed, even if the owner has paid for a previous repair. Claiming a refund will not close the recall on the vehicle.
- Ford Motor Company is offering a refund for owner-paid repairs covered by this recall if the repair was performed prior to the date indicated in the reimbursement plan, which is posted with this bulletin. Owners are directed to seek reimbursement through authorized dealers or, at their option, directly through Ford Motor Company at P.O. Box 6251, Dearborn, MI 48121-6251.
- Dealers are also pre-approved to refund owner-paid <u>emergency</u> repairs that were performed away from an authorized servicing dealer after the end date specified in the reimbursement plan. Non-covered repairs, or those judged by Ford to be excessive, will not be reimbursed.
- Refunds will only be provided for the cost associated with removing a ground wire from the battery junction box.

New! RENTAL VEHICLES

Short-Term Rentals

Dealers are pre-approved for up to two days for a comparable rental vehicle (no SSSC contact required).

Long-Term Rentals

0

- PASS INSPECTION: Vehicles that <u>pass</u> the BJB inspection are NOT approved for *long-term rental* vehicles. Refer to the 22S48 technical instructions for additional information.
- **FAIL INSPECTION:** Vehicles that <u>fail</u> the applicable BJB inspection should not be returned to the customer to continue to drive.

• Parts are NOT available:

- BJB is on backorder.
- PARTS ESCALATION PROCESS (Vehicle Off Road) process has been followed and COPIS ticket with VOR flagged has been submitted.
 - Dealers are self authorized to provide long-term rental vehicles immediately.
 - ✓ Dealers will need to contact the SSSC for an approval code, the <u>same day the rental</u> <u>was authorized</u>.
 - (Note: The approval code is not required prior to putting the customer into a rental.)
 - ✓ The approval code will ensure part availability for the vehicle after putting the customer in a rental.
 - ✓ If long-term rental vehicles are needed beyond <u>September 15, 2022</u>, dealers will have to contact SSSC for an extension.

Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Heavy Duty Cooling Fan Underhood Fire

New! RENTAL VEHICLES (continued)

• If a customer was previously approved for a rental vehicle by the SSSC under <u>FSA 22S36</u>, but the VIN was forced closed in 22S36 and the VIN is now open in 22S48, refer to the claims preparation and submission section to claim rental under 22A03.

<u>Towing</u>

If towing is required, dealers are authorized to claim up to a maximum value of \$250 to provide towing services for this program.

Pick-Up and Delivery

All customers affected by this recall have the option of complimentary Vehicle Pickup & Delivery service (at participating dealers) with a short-term rental for up to two days. Claim any additional rental days approved by the SSSC as instructed.

Dealers are authorized to claim unique services for completing this program, including:

- Dealers are authorized to claim one-half labor hour <u>per repair</u> for vehicle pick-up and delivery services.
- Dealers must retain a Vehicle Pick-up and Delivery Record with the repair order documentation. Refer to the Claims Preparation and Submission section and Attachment IV for details.

LINCOLN PICKUP AND DELIVERY

Owners of 2017 MY and newer Lincoln vehicles have the option of requesting pickup and delivery service with a Lincoln loaner (up to 2 days), from their dealership. For details, reference EFC08749, 2021 Lincoln Pickup & Delivery Updates. Claim any additional rental days approved by the SSSC as instructed. Claim the difference of pre-approved days, or any additional rental days approved by the SSSC as instructed.

Alternative Transportation

If a customer is unable or does not wish to rent a vehicle but still requires transportation, the rental reimbursement allowance can be used for alternative transportation. Alternative transportation is approved for \$100 per day for both Ford and Lincoln customers. The dollar per day allowance can be cumulative across multiple rides per day (e.g. ride to work \$20 and ride home \$24).

- Alternative transportation reimbursement can be claimed for both short-term and long-term scenarios.
- Any amount in excess of the cost per day limits will be the customer's responsibility.
- The customer will need to pay up front and provide proof of payment to the dealer.
- Dealers will then need to submit for reimbursement following the Rental Vehicle Reimbursement Process and then refund the customer.

Examples of alternative transportation:

- Taxi
- Public Transportation Subway, Train, or Bus
- Rideshare alternatives (Uber, Lyft, etc.)

ATTACHMENT I

NEW VEHICLE DEMONSTRATION / DELIVERY HOLD – Safety Recall 22S48 – Supplement #1

Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Heavy Duty Cooling Fan Underhood Fire

ADDITIONAL REPAIR (LABOR TIME AND/OR PARTS)

Additional repairs identified as necessary to complete the FSA should be managed as follows:

- For related damage and access time requirements, refer to the Warranty and Policy Manual / Section 6

 Ford & Lincoln Program Policies / General Information & Special Circumstances for FSA's / Related Damage.
- For vehicles within new vehicle bumper-to-bumper warranty coverage, no SSSC approval is required, although related damage must be on a separate repair line with the "Related Damage" radio button checked.
 - Ford vehicles 3 years or 36,000 miles
 - Lincoln vehicles 4 years or 50,000 miles
- For vehicles outside new vehicle bumper-to-bumper warranty coverage, submit an Approval Request to the SSSC Web Contact Site prior to completing the repair.

<u>New!</u> CLAIMS PREPARATION AND SUBMISSION

- Claim Entry: Enter claims using Dealer Management System (DMS) or One Warranty Solution (OWS) online.
 - When entering claims, select claim type 31: Field Service Action. The FSA number (22S48) is the sub code.
 - For additional claims preparation and submission information, refer to the Recall and Customer Satisfaction Program (CSP) Repairs in the OWS User Guide.
- **Related Damage/Additional labor and/or parts**: Must be claimed as Related Damage on a separate repair line from the FSA with same claim type and sub code as described in Claim Entry above.

IMPORTANT: Click the Related Damage Indicator radio button.

- **Rentals:** For rental vehicle claiming, dealers are pre-approved for local market rates for both short and long-term rentals. Enter the total amount of the rental expense under Miscellaneous Expense code RENTAL.
- Lincoln Pickup & Delivery: Claims for Lincoln Pickup & Delivery with a Lincoln loaner (up to 2 days) should be submitted on a separate line from the FSA. Refer to EFC08749, 2021 Lincoln Pickup & Delivery Updates for details.
 - Use sub code 22A03 on the claim.
 - The maximum number of days that can be requested on one RO line is 30 days.

Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Heavy Duty Cooling Fan Underhood Fire

New! CLAIMS PREPARATION AND SUBMISSION (continued)

Rental Vehicle Reimbursement

- For Long-Term (greater than two days) rental, dealers are self authorized to provide long-term rental vehicles immediately.
- Dealers will need to contact the SSSC for an approval code, the same day the rental is authorized. (Note: The approval code is not required prior to putting the customer into a rental.)
- Dealers should submit a rental request to the SSSC using FSA Contact Type APPROVAL REQUEST.
- If *submitting* a daily rental amount above guidelines, (\$60 per day Ford, \$72 per day Lincoln), please provide evidence of locally higher rates.
- If SSSC approval is provided under program number 22A03, eligible rental expenses and the administrative fee should be claimed on an RO line that is separate from the repair.
- Use Misc. Expense Code "RENTAL" for the rental expenses.
- Use sub code 22A03 on the claim.
- The maximum number of days that can be requested on one RO line is 30 days.
- Rental extensions beyond the initial 30 day request must be submitted to SSSC for approval.
- **Refunds:** Submit refunds on a separate repair line.
 - Program Code: 22S48
 - Misc. Expense: ADMIN
 - Misc. Expense: REFUND Misc. Expense: 0.2 Hrs.
 - Multiple refunds should be submitted on one repair line and the invoice details for each repair should be detailed in the comments section of the claim.

• Special Allowances

- Mobile repair allowances can be claimed for dealer-performed mobile repairs. Dealers that are working with Ford-contracted mobile repair companies should refer to those companies for claiming instructions.
- For dealer-performed mobile repairs, retain a copy of the Service Management signed record (see Attachment IV), with the repair order documentation.
- Claim the mobile repair allowance Labor Operation Code 22S48MM along with the applicable Labor Operation Code for the repair (refer to the Labor Allowances table in Attachment II).

Provision for Locally Obtained Supplies: Includes dual-wall heat shrink tubing and Coroplast tape.

- . Submit on the same line as the repair.
 - Program Code: 22S48
 - Misc. Expense: OTHER
 - Misc. Expense: Claim up to \$3.00 (\$253 total for Misc. Expense: Other)
- **Provision for Towing:** Dealers are authorized to claim up to a maximum value of \$250 to provide towing services for completing this program, only if BJB or other related damage exists and the repair cannot be completed by mobile service. Submit on the same line as the repair.
 - o Program Code: 22S48
 - Misc. Expense: OTHER
 - Misc. Expense: Claim up to \$250.00 (\$253 total for Misc. Expense: Other)

Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Heavy Duty Cooling Fan Underhood Fire

New! LABOR ALLOWANCES

Note: Owners should be instructed to park their vehicle outside away from structures and other vehicles due to the risk of fire <u>until this repair has been completed.</u>

Description	Labor Operation	Labor Time
Inspect cover, Inspect BJB, remove BJB, Cut/heat shrink ground wire from BJB harness, re-assemble, and check operation of HVAC blower and wiper/washer leaks at BJB <i>Note: This repair may be completed in dealership or by</i> <i>mobile repair.</i>	22S48B	1.1 Hour
 Failed BJB Inspection, Part on Back-Order: Inspect cover, Inspect BJB, Contact SSSC, BJB is on Back-Order, COPIS Ticket submitted, VOR selected, Rental requested for customer (if requested), negative battery cable disconnected, vehicle parked outside. Vehicle should not be returned to customer to continue to drive with BJB that failed inspection. This is an interim labor operation code and will not close recall 22S48CC can be claimed with B, C and ZZ 	22S48CC	0.3 Hours
BJB was on back order - Extra time to un-tape and re- connect the battery once back ordered BJB is in. Can only be claimed with B, CC and ZZ .	22\$48C	0.1 hours
Time allowed to submit photos for BJB Fuse panels and/or top and bottom covers* *This labor operation code should only be claimed when photos have been submitted in an SSSC Part Order contact, showing BJB, BJB top or bottom covers that are damaged. VINs claiming this in OWS without attached photos are subject to charge-back. This labor operation code will be deleted and will reject once parts are available on open order.	22S48ZZ	0.2 Hours

New! PARTS REQUIREMENTS / ORDERING INFORMATION

SSSC Web Contact Site:

Parts are not yet available to repair all vehicles. Until parts are available to repair all vehicles, dealers may only order parts and repair vehicles, which are customer-owned vehicles <u>currently in the</u> <u>dealership</u>.

- To place an order for the following parts, submit a VIN-specific Part Order contact via the SSSC Web Contact Site three or more photos as required per the technical instructions.
 - Door label with VIN
 - Odometer showing mileage of vehicle
 - Review the updated technical instructions and provide photos as requested for each step the BJB fuse panel, top covers or bottom fails the inspection process per the Technical Instructions.

BJB - Only replace the BJB and/or covers if melted, burned, or broken per the technical instructions.

Part Number	Description	Order Quantity	Claim Quantity
LL1Z-14A068-A	BJB – Fuse Panel Assembly (Comes with a new cover – do not order JU5Z-14A003-B also)	Only after failed Inspection	As Required
JL3Z-14A003-A	High Current Fuse Cover	Only after failed Inspection	As Required
JL3Z-14A003-B	Bottom Cover of BJB	Only after failed Inspection	As Required
JU5Z-14A003-B	Fuse Panel Top Cover - not required if BJB is being replaced	Only after failed Inspection	As Required

Dealers will be notified via a DOES II communication if circumstances warrant a change in part supply strategy and when open ordering resumes.

Order the Zip-Tie below through normal order processing channels:

Part Number	Description	Order Quantity	Claim Quantity
	Zip Ties (1 required):		
WA-7-SBA	WA-7-SBA (Package of 100, order 1, claim .01)		
WA-11-SBA	WA-11-SBA (pack of 50, order 1, claim .02) LU5Z-14A163-B (Pack of 1, order 21, claim 1)	1	See description
LU5Z- 14A163-B	 Return unused zip-ties to parts department Check dealer inventory before ordering additional quantities. 		description
	Use D2D to order from other dealers.		

To guarantee the shortest delivery time, an emergency order for parts must be placed.

Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Heavy Duty Cooling Fan Underhood Fire

New! PARTS REQUIREMENTS / ORDERING INFORMATION (continued)

Obtain the parts below locally:

Part Number	Description	Quantity Needed
Obtain Locally	Heat Shrink Material (must be dual-wall and lined with sealer)	As Required - Claim as Misc. Other
Obtain Locally	Coroplast Engineered Wire Harness Tape (Narin)	As Required - Claim as Misc. Other

DEALER PRICE

For latest prices, refer to DOES II.

PARTS RETENTION, RETURN, & SCRAPPING

Follow the provisions of the Warranty and Policy Manual, Section 1 - WARRANTY PARTS RETENTION AND RETURN POLICIES. If a replaced part receives a scrap disposition, the part must be scrapped in accordance with all applicable local, state and federal environmental protection and hazardous material regulations. Federal law prohibits selling motor vehicle parts or components that are under safety, compliance, or emissions recall.

EXCESS STOCK RETURN

Excess stock returned for credit must have been purchased from Ford Customer Service Division in accordance with Policy Procedure Bulletin 4000.

REPLACED FSA PARTS INSPECTION AND SIGN OFF

Effective March 1st 2021 all parts replaced as part of an FSA repair with a repair order open date of March 1st 2021 or later must be inspected and signed off on the repair order by a member of your dealers fixed operations management team or an employee the task has been delegated to. If the task is to be delegated to a non-management employee, the employee needs to be someone other than the technician who completed the repair and needs to understand the importance of completing this task consistently and accurately.

- All parts replaced as part of an FSA repair should be returned to the parts department following the Warranty Parts Retention and Return Policies.
- Inspect the replaced parts to verify the FSA repair was completed.
- If the FSA repair is found to be complete, the designated employee signs the repair order line or parts
 return stamp area (electronic or hand signed) for the FSA repair indicating the parts were inspected and
 validated to have been replaced.
- After the parts have been inspected, they should be handled based on the guidance in the parts status report in the Online Warranty System (Hold, Return, CORE, Scrap, etc.).
- This process is subject to review during warranty audits for FSA repairs with a repair order open date of March 1st 2021 or later. Any eligible FSA claims requiring parts replacement, found not to have been inspected and signed off during a warranty audit will be subject to chargeback and consideration for enrollment into the Dealer Incomplete Recall Repair Process.

Certain 2021 Model Year Expedition and Lincoln Navigator Vehicles equipped with a Heavy Duty Cooling Fan Underhood Fire

Note: Other approvals (electronic or handwritten) for add-on repair lines, dealer owned vehicle repairs, and repeat repairs do not qualify as FSA parts inspection approvals. The post repair FSA parts inspection process (electronic or handwritten) is independent from other warranty approval requirements. The approval by the designated employee implies that the FSA parts were found to be replaced and must be able to be clearly identified on the Repair Order. If multiple FSA's require approval on a single Repair Order, each applicable occurrence will require individual post repair approval by the designated employee.

CERTAIN 2021 MODEL YEAR EXPEDITION AND LINCOLN NAVIGATOR VEHICLES EQUIPPED WITH A HEAVY DUTY COOLING FAN — UNDERHOOD FIRE

SERVICE PROCEDURE

Recommended Tool List:

Small Flathead Screwdriver		
Terminal Tool		
Wire Cutter		
Heat Gun		
Coroplast Tape		
Dual wall heat shrink tubing		

Figure 1 is a breakdown of the Battery Junction Box (BJB).

NOTE: Items circled in red are included with a new BJB. Covers can be ordered independently of the BJB.

FIGURE 1

FIGURE 2

- 2. Check to make sure that the covers are properly installed. On the fuse box cover there are three attachment features securely engaged, two hoops in the rear and one latch in the front. On the High Current cover there are two attachment features securely engaged, one hoop in rear fully engaged and one latch in the front fully engaged. See Figure 3. Are both covers properly installed? Yes Proceed to Step 3.
 - No Ensure that the covers latch and install properly. Proceed to Step 3.

FIGURE 3

- 3. Check for any damage such as cracks, excessive warping, melting, broken hoop(s), and/or broken latch(es) on both covers. Is there any damage present on either cover? See Figure 4.
 - Yes Replace damaged cover(s), proceed to Step 4. No Proceed to Step 4.

FIGURE 4

NEW! 4. Remove covers and inspect BJB. Is there any evidence of melted fuse(s), melted relay(s), or melted plastic in the BJB? See Figure 5.

Yes - Replace BJB, photos and Special Service Support Center (SSSC) approval required to proceed. Is the part available? Yes - Proceed to Step 5.

No - Part is on back-order. Park vehicle outside, disconnect negative battery cable, and contact SSSC for approval for rental vehicle for customer.

No - Proceed to Step 6.

2236F

FIGURE 5

5. On driver's side, inspect ground #113 and associated wires for damage. Is there evidence of chafing, melting, or discoloration? See Figure 6.

Yes - Contact SSSC. No - Proceed to Step 6.

NOTE: The following steps outline how to remove the BJB.

- 6. Remove the battery and battery tray. Please follow Workshop Manual (WSM) procedures in section 414-01.
- 7. Disconnect the outboard Powertrain Control Module (PCM) electrical connector. See Figure 7.

2236AA

FIGURE 7

8. Remove battery power wires and make sure to document their position. See Figure 8.

FIGURE 8

9. Separate the upper and lower BJB housings from the bottom cover. There are 4 clips that fasten these two parts together, two in the front and two in the rear. It is easiest to release these tabs with a small screwdriver. See Figure 9.

NOTE: BJB removed for illustrative purposes.

FIGURE 9

10. Remove the fasteners for the bottom cover of the BJB. See Figure 10.

FIGURE 10

11. Release the tab connecting the BJB to the frame. Needle nose pliers will be needed to release the tab. See Figure 11.

FIGURE 11

12. Release the 2 harness retainers from underneath the lower BJB. See Figure 12.

FIGURE 12

13. Position BJB, remove the zip tie connecting the middle wire harness to the lower portion of the BJB. See Figure 13.

FIGURE 13

14. Remove lower BJB from vehicle.

15. Disconnect the three wire harness connectors from the BJB. See Figure 14.

FIGURE 14

16. Remove BJB box from vehicle.

17. Locate the black 50-way connector (C1035B). See Figure 15.

NOTE: Connector has been highlighted blue to aid in identification.

FIGURE 15

18. Remove back shell and zip-tie from 50-way black connector (C1035B). See Figure 16.

FIGURE 16

ATTACHMENT III PAGE 10 OF 13 SAFETY RECALL 22S48-<mark>S1</mark>

19. Remove abrasion tape from the harness and peel back the covering about 300mm. See Figure 17.

NOTE: Do NOT cut wire covering.

FIGURE 17

20. Using a small flat-head screwdriver, remove the Terminal Position Assurance (TPA) cover. See Figure 18.

NOTE: TPA cover has a hard stop, so it will need to be unclipped twice.

ATTACHMENT III PAGE 11 OF 13 SAFETY RECALL 22S48-S1

21. In connector C1035B identify cavity 47 which contains a black-violet wire. See Figure 19.

FIGURE 19

22. Remove the black-violet wire located in cavity 47 from the C1035B connector using a terminal tool. Cut terminal end off of wire. See Figure 20.

ATTACHMENT III PAGE 12 OF 13 SAFETY RECALL 22S48-<mark>S1</mark>

23. Add Dual Wall Heat Shrink tubing to cover open end of the black-violet wire. Bend the circuit with heat shrink into the bundle and secure with Coroplast tape. See Figure 21.

FIGURE 21

- 24. Reinstall TPA cover, ensuring that it properly seats into the C1035B connector.
- 25. Put wire covering back into place and secure with new Coroplast tape. See Figure 22.
- **NOTE:** If there are any tears in the wire covering, it will still be reused. Using Coroplast tape, secure any tears in the wire covering.

- 26. Secure wire covering and wire bundle with a zip tie. Clip back shell into place on connector C1035B. See Figure 23.
- **NOTE:** Be sure to use identified slots to pull zip-tie through. Also, the head of the zip-tie must be placed so that it will be underneath the shell, or it will not clip back into place.

- 27. Install BJB. Reverse removal directions Steps 6-16.
- 28. Ensure both covers of the BJB are properly installed and securely engaged.
 - 29. Check functionality of the blower motor for normal operation.
 - 30. Verify proper operation of the front and rear washer motor. Ensure that there are no leaks from the washer system and hoses, near the BJB.

Ford Motor Company Recall Reimbursement Plan for 22S48

Ford and Lincoln dealers are in the best position to quickly and efficiently process reimbursement requests. However, federal legislation requires all motor vehicle manufacturers to establish processes through which customers may seek recall reimbursement directly from the manufacturer or from the dealers.

Regarding the specific reimbursement plan for Recall # 22S48. owners who have paid for service to remedy the defect or noncompliance must have had that service performed prior to August 19, 2022. After this date, if repairs related to this recall are performed by a non-Ford repair facility in an emergency situation, customers must submit any refund requests through their dealership. As required by this federal regulation, Ford Motor Company submitted the details of its latest General Recall Reimbursement Plan in a letter to the National Highway Traffic Safety Administration (NHTSA) in May 2021. The following is the text of that letter and the Plan:

General Recall Reimbursement Plan

(As submitted to the NHTSA)

Pursuant to the requirements set forth in 49 CFR Part 573 and Part 577 of the Code of Federal Regulations, Ford Motor Company (Ford) is submitting required information pertaining to our general reimbursement plan for the cost of remedies paid for by vehicle owners before they are notified of a related safety recall.

Set forth below is Ford's general plan to reimburse owners and purchasers for costs incurred for remedies in advance of notification of potential safely-related defects or noncompliance's pursuant to Part 573.6 (c)(8)(i). This plan has not changed since our February 20, 2019 submission.

Reimbursement Notification

Ford's notice to a vehicle owner in accordance with 49 CFR Part 577 will indicate that Ford is offering a refund if the owner paid to have service to remedy the defect or noncompliance prior to a specified ending date. In accordance with Part 573.13 (c)(2), this ending date will be defined as a minimum of ten calendar days after the date on which Ford mailed the last of its Part 577 notifications to owners, and will be indicated in the specific reimbursement plan available to owners for an individual recall. This notice will direct owners to seek eligible reimbursement through authorized dealers or, at their option, directly through Ford at the following address:

Ford Motor Company P.O. Box 6251 Dearborn, MI 48121-6251

Ford notes that this rule allows for the identification of a beginning date for reimbursement eligibility. Under the rule, an owner who paid to remedy the defect or noncompliance prior to the identified beginning date would not be eligible for reimbursement. Ford generally has not established such a beginning date for reimbursement eligibility and does not presently anticipate changing this general policy. However, in any case where Ford determines a beginning date is appropriate, Ford will indicate that date in the owner notice. As permitted by 577.11(e), Ford may not include a reimbursement notification when all vehicles are well within the warranty period, subject to approval by the agency.

Costs to be Reimbursed

For vehicles, reimbursement will not be less than the lesser of:

- The amount paid by the owner for the remedy that specifically addressed and was reasonably necessary to correct the defect or noncompliance that is the subject of the recall, or
- The cost of parts for the remedy (to be no more than the manufacturer's list retail price for authorized part(s), plus associated labor at local labor rates, miscellaneous fees (such as disposal of waste) and taxes.

For replacement equipment, reimbursement will be the amount paid by the owner for the replacement item (limited by the amount of the retail list price of the defective or noncompliant item that was replaced, plus taxes, where the brand or model purchased by the owner was different than the brand or model that was the subject of the recall). If the item of motor vehicle equipment was repaired, the reimbursement provisions identified above for vehicles will apply.

Ford notes that costs incurred by the owner within the period during which Ford's original or extended warranty would have provided for a free repair of the problem will not be eligible for reimbursement, as provided by Part 573.13 (d)(1).

Entities Authorized to Provide Reimbursement

Ford will continue to use authorized dealers to reimburse owners under the specific reimbursement plans for a particular recall, and will encourage owners to pursue requests for reimbursement directly through dealers to expedite reimbursement. Ford will also provide a mailing address to which customers can, at their option, send requests for reimbursement directly to Ford, as previously noted. Requests for reimbursement sent directly to Ford may take up to 60 days to process. Whether the owner chooses to pursue reimbursement requests through a dealer or directly through Ford, the owner will be directed to submit the required documentation, upon which reimbursement eligibility will be determined.

Required Documentation

The reimbursement determination will depend upon the information provided by the customer. Consistent with Part 573.13 (d)(4) the following information must be submitted:

- Claimant name and address
- Vehicle make, model, and model year
- Vehicle identification number (VIN) and, for replacement equipment, a description of such equipment or, for tires, the model, size and TIN (DOT code)
- Identification of the recall number (either the Ford recall number or the NHTSA recall number)
- Identification of the owner of the recalled vehicle at the time that the pre-notification remedy was obtained
- An original receipt for the pre-notification remedy that includes a breakdown of the amount for parts, labor, other costs and taxes, including costs for the replacement item. Where the receipt covers work other than to address the recall or noncompliance, Ford may require the claimant to separately identify costs that are eligible for reimbursement.
- If the remedy was obtained during the warranty period, documentation indicating that the warranty was not honored or the warranty repair did not correct the problem related to the recall.

Failure to submit all of the above information may result in denial of the reimbursement request.

Additional Information

The Part 577 required owner notice will provide a toll-free telephone number through which specific information about the reimbursement plan can be requested from Ford. This general reimbursement plan will be incorporated into notifications pursuant to Part 573.6 by reference. Information specific to an individual recall also may be incorporated into the Part 573.6 notification.
