

New Safety Recall Advanced Communication – Z50

FCA US LLC (FCA US) has announced a safety recall on certain 2021 and 2022 Model Year (WL) Jeep® Grand Cherokee vehicles.

VINs identified as being involved in this campaign are currently live and searchable. **Stop sale is in effect for the above-identified vehicles.**

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$21,000 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a damaged taillamp/side marker that may be nonfunctional. Inoperative taillamp/side markers may cause an approaching vehicle to be unaware of the position and dimensions of the vehicle, which can cause a crash without prior warning.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 108 requires each vehicle to be equipped with at least two red steady burning taillamp-side markers.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to inspect and replace both body mounted tail lamp assemblies as needed. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2022.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
