

## **New Safety Recall Advanced Communication – Z50**

FCA US LLC (FCA US) has announced a safety recall on certain 2021 and 2022 Model Year (WL) Jeep® Grand Cherokee vehicles.

### **REASON FOR THIS SAFETY RECALL**

Some of the above vehicles may have been built with a damaged taillamp/side marker which may result in a nonfunctional taillamp/side marker. Vehicles with inoperative taillamp/side marker may result in an approaching vehicle being unaware of the position and dimensions of the vehicle and can cause a crash without prior warning.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 108 requires each vehicle to be equipped with at least two red steady burning taillamp-side markers.

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to inspect and replace both body mounted tail lamp assemblies as needed. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2022.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
