### **PowerGlide Chassis 150-A Circuit Breaker**

Dear Tiffin Motorhome Dealer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Tiffin Motorhomes has decided that a defect, which relates to motor vehicle safety, exists in certain **2022 and 2023 Allegro Breeze, 2022 and 2023 Allegro Bus, 2022 and 2023 Phaeton, and 2022 Zephyr Motorhomes, all built on Tiffin Motorhome's PowerGlide Chassis.**

Tiffin Motorhomes has become aware of the possibility that on these motorhomes, the chassis 150-amp circuit breakers may overheat and trip. If this were to happen, the chassis would lose power and the driver's dash display would go blank. If the chassis were to lose power, this would increase the risk of a crash.

Tiffin Motorhomes will have the circuit breakers inspected and if they are found to be defective, they will be replaced with new updated circuit breakers.

Owners will be notified by mail about the recall and will be instructed to take their motorhome to a reputable service center **OR** dealer of **their** choice to have this inspection and replacement, if needed, completed. Tiffin Motorhomes is allowing 15 minutes for inspection of these circuit breakers. If the circuit breakers need to be replaced Tiffin Motorhomes is allowing an additional 15 minutes.
