Urgent

Subject: **BMW Recall 22V-xxx: Telematics Control Unit**

BMW AG is conducting a Voluntary Safety Recall (effective November 15, 2022) on a small number of Model Year 2023 BMW 7 Series and i7 models that were produced between July 4, 2022 and November 11, 2022.

Due to a software programming issue involving the Telematics Control Unit (TCU), in the event of a crash, the vehicle's location may not be transmitted. This could delay emergency responders from locating the vehicle which could include injured vehicle occupants.

The Recall Notice has been attached for further information.

Software is being released today and the bulletin will be updated tomorrow, November 16, 2022.

Sincerely,
Technical Service

SAFETY RECALL NOTICE

To: All Center Operators, Sales Managers, Service Manager, Parts Manager and Warranty Processor

RE: Recall 22V-xxx: Telematics Control Unit – B84 13 22

BMW AG is conducting a Voluntary Safety Recall (effective November 15, 2022) on a small number of Model Year 2023 BMW 7 Series and i7 models that were produced between July 4, 2022 and November 11, 2022.

Please be reminded that it is a violation of federal law (The Safety Act) for you to sell, lease or deliver any new motor vehicle covered by this notification until the recall repair has been performed. This means that centers may not legally deliver new motor vehicles to consumers until they are fixed or use/sell replacement equipment/parts subject to this recall. Note also that substantial civil penalties apply to violations of the Safety Act.

Also, you should not sell, lease or deliver any Certified Pre-Owned or used vehicles subject to a safety recall until the repair is completed.

Please follow any special instructions that we provide to you for the return or disposition of recall parts.

We appreciate all your assistance with this Recall.
