### WHY DOES MY VEHICLE NEED REPAIRS?

FCA records indicate that you may have purchased one or more of the above headlamp assemblies for your vehicle <sup>[1]</sup>. Some of the above headlamp assemblies manufactured and sold as aftermarket equipment may be equipped with a front amber side reflex reflector that may not meet the photometric requirements of Federal Motor Vehicle Safety Standard ("FMVSS") 108 for lamps, reflective devices, and associated equipment. **If the reflection of light from the reflector is below specification, the position and dimensions of the vehicle may not always be perceived by other drivers, which can cause a vehicle crash without prior warning.**

The condition described above does not comply with FMVSS 108 which requires amber side reflect reflectors conform to specific photometry requirements for the reflex reflector color. Headlamp assemblies built with the affected amber side reflex reflector do not meet the applicable photometric requirements.

### HOW DO I RESOLVE THIS IMPORTANT SAFETY ISSUE?

FCA will exchange or replace all affected headlamp assemblies <sup>[2]</sup> free of charge (parts and labor). To do this, your dealer will exchange over the counter uninstalled headlamps or replace on vehicle installed headlamps. We recommend that you schedule a service appointment to minimize your inconvenience. On vehicle replacement of headlamps estimated repair time is one hour and fifteen minutes. Please bring your headlamp or vehicle and this letter with you to your dealership.
