IMPORTANT SAFETY RECALL (Remedy Notice)

**Certain 2021 Model Year Porsche Taycan Vehicles
Porsche Recall ANA2 / NHTSA ID 22V-052**

Dear [REDACTED],

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Porsche has decided that that a defect, which relates to motor vehicle safety, exists in certain certain 2021 Model Year Porsche Taycan Vehicles.

What is the issue?

Affected vehicles may have been produced with incorrect settings for the camera measuring ranges in the axle setting device. This can result in the rear axle being out of alignment, which could cause excess and uneven tire wear. If the tires are worn to the point where the carcass is visible, this may cause a puncture, which can lead to a loss of vehicle control and a crash without warning.

What will Porsche do?

Porsche is conducting a safety recall to check the suspension alignment on affected vehicles and adjust as necessary, as well as replace tires if there is premature wear, free of charge.

What should you do?

The remedy needed to complete this recall is now available. Please contact any authorized Porsche dealer to schedule an appointment to have this recall performed as soon as possible and to arrange for Porsche-provided alternate transportation, if necessary.
