This notice applies to your vehicle: <MODEL YEAR> <BRAND> <CARLINE>, <VIN>

NHTSA: 22V155

Subject: Safety Recall 20DN - Fuel Level Sender

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that a defect, which relates to motor vehicle safety, exists in certain 2019-2021 model year Audi vehicles. Our records show that you are the owner of a vehicle affected by this action.

Audi of America, Inc.
3800 Hamlin Road
Auburn Hills, MI 48326
+1 800 253 2834
www.audiusa.com

What is the issue? Due to tolerance deviations, the distance between the fuel level sender and a ventilation pipe in the tank may be too small. As a result, the fuel level sender may get stuck on the ventilation pipe which will lead to a drop in the fuel level not being detected and therefore to an incorrect fuel level and remaining range being displayed in the instrument cluster. This may cause the vehicle to run out of fuel even though the indicator shows that there is still fuel in the tank. Inaccurate fuel indication may lead to an engine stall due to fuel starvation, increasing the risk of a crash.

What will we do? In order to correct this defect and create a sufficient distance between the fuel level sender and the ventilation pipe, your Audi dealer will install a sensor with tighter geometric tolerances into the fuel tank. This work will take about two hours to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

What should you do? Please contact your authorized Audi dealer without delay to schedule this recall work. For your convenience, you can also visit www.audiusa.com and click on the "Find a Dealer" link to locate a dealer near you and schedule this work.

If possible, please ensure the fuel level in your vehicle is less than one-quarter of a tank when you arrive at the dealership for this repair.

Precautions you should take If the recall condition is present in the vehicle, the driver may notice an implausible remaining range since the last refueling or an implausible stagnation of the fuel gauge. Should this occur, customers are advised to contact their authorized Audi dealer without delay to have the vehicle inspected.

IMPORTANT SAFETY RECALL

Lease vehicles and address changes

If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten (10) days of receipt. If you have changed your address or sold the vehicle, please fill out the enclosed prepaid Owner Reply card and mail it to us so we can update our records.

Reimbursement of Expenses

If you have previously paid for repairs relating to the condition described in this letter, the enclosed form explains how to request reimbursement. We would be pleased to review your reimbursement request.

Can we assist you further?

If your authorized Audi dealer fails or is unable to complete this work free of charge within a reasonable time, please contact Audi Customer Experience at 1-800-253-2834 or via our “Contact Us” page at www.audiusa.com.

Checking your vehicle for open Recalls and Service Campaigns

To check your vehicle’s eligibility for repair under this or any other recall/service campaign, please visit the **Recall/Service Campaign Lookup** tool at www.audiusa.com and enter your Vehicle Identification Number (VIN).

If you still cannot obtain satisfaction, you may file a complaint with: The Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

We apologize for any inconvenience this matter may cause; however we are taking this action to help ensure your safety and continued satisfaction with your vehicle.

Sincerely,

Audi Customer Protection
