Dear Mercedes-Benz Owner:

This notice is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has decided that certain Model Year ("MY") 2018- 2021 A-Class, C-Class, CLA-Class, CLS-Class, E-Class, GLA-Class, GLB-Class, GLC-Class, GLE-Class and GLS-Class vehicles fail to conform to Federal Motor Vehicle Safety Standard No. 111, "Rear Visibility." Our records indicate that your vehicle is included in the affected population of vehicles.

What is the issue?

The function of the rearview camera might be impaired where the rearview image might not be displayed in the central display after reversing. Instead, the central display would continue to display the existing image or display a black screen with a message indicating the inoperability of the rearview camera system. In addition, the rearview camera image neither freezes nor deactivates. As the vehicle begins to back up, a rearview camera image under these conditions might impair rear visibility which could increase the risk of a crash. When the issue occurs, the driver might notice that the central display would either continue to display the existing image or display a black screen with a message indicating the inoperability of the rearview camera.

What will your Mercedes-Benz Dealership do?

An authorized Mercedes-Benz dealer will check the currently installed software and, if necessary, update the rearview camera software on the affected vehicles. **This service will be provided free of charge.** We are dedicated to always delivering the best customer experience, and respect for your time is a top priority. While the minimum repair time can be less than **30 min**, your dealer can provide you with a better estimate of the overall time for this service visit. As a matter of the normal service process, an authorized Mercedes-Benz dealer will also check for other repair measures which might be applicable to your vehicle and this may increase the required working time.

Steps to take.

- Find your nearest authorized Mercedes-Benz dealership at **mbusa.com/recalls** to schedule your recall repair.
- Please mention you are scheduling an appointment for Mercedes-Benz Recall Campaign **2022060007**.
- You may be asked for your VIN, which for your convenience is located at the top of this letter.

We apologize for any inconvenience this may have caused and look forward to taking care of this important safety recall campaign.

Reimbursement to Customers for Repairs Performed Prior to Recall

If you have already paid to have this recall condition corrected you may be eligible to receive reimbursement. Requests for reimbursement may include parts, labor, fees and taxes. Reimbursement may be limited to the amount the repair would have cost if completed by an authorized Mercedes-Benz dealer. The following documentation must be presented to your dealer for reimbursement.

Original or clear copy of all receipts, invoices and/or repair orders that show:

- The name and address of the person who paid for the repair.
- The Vehicle Identification Number (VIN) of the vehicle that was repaired.
- What problem occurred, what repair was done, when it was done and who repaired it.
- The total cost of the repair expense that is being claimed.
- Proof of payment of repair (copy of front and back of cancelled check, or copy of credit card receipt).
- Reimbursement will be made by check from your dealer.

Please speak with your dealer concerning this matter. Thank you for your cooperation.
