This notice applies to your vehicle, <VIN>

NHTSA Recall No: 22V-235

Dear Tesla Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Tesla, Inc. has decided that certain Model Year ("MY") 2020-2022 Model S, Model X and Model Y and MY 2017-2022 Model 3 vehicles fail to conform to Federal Motor Vehicle Safety Standard ("FMVSS") No. 141 "Minimum Sound Requirements for Hybrid and Electric Vehicles." Our records show that you are the owner of a vehicle affected by this action.

REASON FOR THIS RECALL

Boombox functionality allows customers to play preset or custom sounds through the vehicle's pedestrian warning system ("PWS") when the vehicle is parked or in motion, including if Summon or Smart Summon is in use. Sounds emitted using Boombox may obscure the pedestrian alert sound when the vehicle is in motion, which could increase the risk of a crash.

WHAT TESLA WILL DO

Tesla remedied the noncompliance with a free over-the-air ("OTA") software update that disables the Boombox functionality when the vehicle is in Drive, Neutral and Reverse, including if Summon or Smart Summon is in use.

WHAT YOU SHOULD DO

Please check that your vehicle is running software version 2022.3.102.1, 2022.3.103.0.1, 2022.3.103.5, 2022.12 or a release later than 2022.12, all of which contain the remedy. You can check the software version running on your vehicle by tapping 'Controls' then 'Software' on your touchscreen. If your vehicle is running any one of the software versions listed above, then there is no further action that you need to take, and you may disregard this notice. If your vehicle is not running one of these software versions, then please install the latest pending software update through your Tesla app, or by tapping the yellow clock icon on your vehicle's touchscreen and following the prompts. For awareness, software updates typically take between 20 to 60 minutes to complete. See www.tesla.com/support/software-updates for additional details on Tesla vehicle software updates.

If you believe that Tesla has failed or is unable to remedy this defect without charge or within a reasonable time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE, Washington, DC 20590, by calling 1-888-327-4236 (TTY: 1-800-424-9153), or by visiting www.safercar.gov.

Federal law requires any lessor who receives a notification of a noncompliance or safety-related defect determination pertaining to any leased motor vehicle to send the notice to the lessee within 10 days.

If you no longer own the vehicle, update vehicle ownership in your Tesla Account. For more details on adding or removing vehicles from your Tesla Account, visit www.tesla.com/support/account-support#add-remove-products. If you have any questions or need assistance installing the software update, please contact Tesla online by visiting www.tesla.com/support/contact or by calling 1-877-79-TESLA (1-877-798-3752).

Thank you for being a Tesla customer. We are committed to ensuring that your vehicle provides the highest possible level of safety.

TESLA, INC.
