IMPORTANT SAFETY RECALL

(NHTSA Recall Number: 22V322)

This notice applies to your vehicle: **(Insert VIN)**

May 25, 2022

Dear Kia EV6 Vehicle Owner:

Kia has identified a defect in your vehicle which relates to motor vehicle safety.

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Kia America, Inc. has decided that a defect which relates to motor vehicle safety exists in certain 2022 MY EV6 vehicles. The defect can result in vehicle rollaway, thereby increasing the risk of a crash and/or injuries. Our records indicate that you own or lease one of the potentially affected vehicles.

What Is The Problem?

Your vehicle is equipped with a shift-by-wire system that contains a Shifter Control Unit (SCU) and a parking pawl actuator motor. If a voltage fluctuation occurs when the vehicle is off and in the parked position, the SCU may disengage the parking mechanism, which can allow vehicle rollaway. Vehicle rollaway increases the risk of a crash and/or injuries.

Kia Will Update the Shifter Control Unit Software At No Cost To You.

Your authorized Kia dealer will update the Shifter Control Unit (SCU) software **at no cost to you**. The estimated time required to perform the recall will be approximately one (1) hour depending on your dealer's schedule.

What Should You Do?

- In the interest of the safety of your passengers, as well as your own safety, please immediately contact your authorized Kia dealer to arrange for the recall repair to be performed on your vehicle.
- **WARNING:** Until you have the recall repair performed on your vehicle, park your vehicle on a level ground. Avoid parking on a slope/inclined surface whenever possible.
