This notice applies to your Hyundai, VIN: XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect, which relates to motor vehicle safety, exists in certain 2021 – 2022 Accent vehicles. Hyundai is initiating Recall 229, a safety recall to repair a condition involving the front seat belt pretensioners in these vehicles in the U.S. and Canadian markets. Hyundai is conducting this action to ensure the safety of its vehicles for Hyundai customers. Our records indicate that your vehicle is affected by this recall.

What is the problem?

The front seat belt pretensioner may deploy abnormally in the subject vehicles, causing the MGG (Micro Gas Generator) to detach from the assembly. An abnormal pyrotechnic pretensioner deployment could cause the pretensioner to explode, and project metal fragments into the vehicle occupant compartment, which may result in injury to vehicle occupants.

All vehicles in the population were also involved in Recalls 211, 219, 220, or 223. Vehicles that have had remedy repairs under the previous recalls will need to have the new remedy completed.

What will Hyundai do?

Hyundai currently has remedy components available for certain 2021 – 2022 Accent vehicles. Your Hyundai dealer will install front seat belt pretensioner anti-separation protection caps. This procedure will be performed at **NO CHARGE** to you.

What should you do?

Please contact your nearest Hyundai dealer to schedule this procedure by visiting www.HyundaiUSA.com/us/en/dealer-locator or calling 1-855-371-9460.
