Important Safety Recall 22V-371

Attention Cross Country Trailer Owner

RE: Trailer Coupler Recall

Model: 612DT8LP
Serial #: 4C91F17
Dealer: Ackerman Equipment 802-249-7941

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Cross Country Mfg. is recalling certain 2022 Cross Country 4T16, 4T18, 4T20, 58DT4, 610DTLP, 610DT8LP, 610DTL, 610DT6, 612DT8LP, 616TL6, 617TL6, 618TL6, 616TK, 620TL6, 616CD, 616CF and 618CF trailers. The coupler was improperly welded, which may cause the trailers to separate from the tow vehicle.

Trailer separation from a tow vehicle can increase the risk of a crash. Dealers will inspect and replace the coupler as necessary, free of charge. The repair will require no more than 2 hours to complete, if necessary.

If you are still not able to have the safety defect remedied within a reasonable time you may wish to write the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, S.E., Washington, DC 20590 or call 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

We are including a copy of the Safety Recall Report filed by Pacific Rim Trailer Products. Also included is a product bulletin showing pictures of the recalled coupler versus a normal coupler. Please check the welds on your trailers' coupler. Please contact the dealer above, only if your coupler is missing welds.

Your safety is a top priority, here at Cross Country Mfg., Inc. We appreciate your attention to this issue.

Thank you,

The Cross Country Mfg., Inc. Team
