

IMPORTANT SAFETY RECALL

June 2022

This notice applies to your vehicle, VIN: _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that certain 2022 model year Cadillac XT6 vehicles fail to conform to Federal/Canada Motor Vehicle Safety Standard 135, "Light vehicle brake systems." As a result, GM is conducting a recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM safety recall N222369130.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.

Why is your vehicle being recalled?

The brake fluid reservoir cap on these vehicles may be missing the reservoir labeling required by S5.4.3: "WARNING: Clean filler cap before removing. Use only DOT4 fluid from a sealed container." A failure to prevent introduction of debris into the brake fluid reservoir after removing the cap could degrade brake performance over time, increasing the risk of a crash.

What will we do?

Your GM dealer will inspect the brake fluid reservoir cap and replace it if necessary. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual inspection and if necessary, service correction time of approximately 20 minutes.

What should you do?

You should contact your GM dealer to arrange a service appointment as soon as possible.

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.

For the hearing or speech impaired, please contact our Customer Assistance Center using the Telecommunication Relay Service by dialing 711 then providing the appropriate Customer Assistance Center number for your vehicle.
