As a result, GM is conducting a recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

## IMPORTANT

### Why is your vehicle being recalled?

Certain 2018-2020 model year Buick Regal vehicles fail to conform to S7.11 of Federal Motor Vehicle Safety Standard (FMVSS) No. 135, "Light vehicle brake systems." Following a partial or full loss of vacuum-brake assist pressure, these vehicles may exceed the stopping-distance requirements in S7.11 of FMVSS 135. If the vehicle's vacuum-power brake assist partially or fully fails, braking events may require additional stopping distance, depending on the brake-pedal force applied by the driver. Increased stopping distances could increase the risk of a crash.

### What will we do?

Your GM dealer will reflash the software in the electronic brake control module (EBCM). This service will be performed for you at **no charge**.

Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 25 minutes.

### What should you do?

You should contact your GM dealer to arrange a service appointment as soon as possible.
