

## **IMPORTANT SAFETY RECALL**

**This notice applies to your vehicle(s), see enclosed VIN list.**

**March 2023  
FL945  
NHTSA #22V-468**

### **Subject: Cascadia Park Brake Engagement**

This notice is sent to you in accordance with the requirements of the *National Traffic and Motor Vehicle Safety Act*.

Daimler Truck North America LLC (DTNA), on behalf of its Freightliner Trucks Division, certain Model Year 2022 Freightliner Cascadia Vehicles manufactured October 28, 2021 through December 17, 2021 fail to conform to Federal Motor Vehicle Safety Standard No. 121 "Air brake systems".

On the affected vehicles, the electronic parking brake activation signal cannot be sent after the truck is in the key off position, and therefore the park brake will not engage. If the park brake does not engage, there is a risk of a rollaway truck, which can increase the risk of a crash.

A Daimler Truck North America authorized service facility will install a fused harness overlay enabling the vehicle to set the parking brake when the key is in the off position. The repair will take approximately 1 hour and will be **performed free of charge**.
