Subject: Safety Recall 61C1 – Passenger Frontal Airbag

Dear Volkswagen Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Volkswagen has decided that a defect, which relates to motor vehicle safety, exists in certain 2016 model year Volkswagen vehicles. Our records show that you are the owner of a vehicle affected by this action.

What is the issue?

In the event of a crash with airbag deployment, the front passenger airbag may explode or deploy improperly. An inflator explosion may result in sharp metal fragments striking occupants, resulting in serious injury or death. An improper airbag deployment may not properly restrain the occupant, increasing their risk of injury in a crash.

What will we do?

To correct this defect, your authorized Volkswagen dealer will replace the passenger frontal airbag. This work will take about two hours to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

What should you do?

Please contact your authorized Volkswagen dealer without delay to schedule this recall work. To set up an appointment online, please visit www.vw.com/find-a-dealer.

Precautions you should take

Volkswagen recommends avoiding use of the front passenger seat whenever possible until the recall repair has been performed.
