Dear Xtreme Outdoors Trailer Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Xtreme Outdoors has decided that a defect which relates to motor vehicle safety exists in certain model 2021-2022 Little Guy Max and Little Guy Mini Max trailers, manufactured between 01/01/2021 and 10/31/2021. As a result, Xtreme Outdoors is conducting a safety recall to address the issue. We are notifying you because our records indicate that you are the current owner of the trailer listed above. Therefore, please review this letter carefully.

WHAT IS THE PROBLEM?

Xtreme Outdoors discovered a manufacturing error may result in axles installed on the subject trailers to have bolts torqued at less than the axle manufacturer's specification. If the axle's hardware was not properly torqued, the axle could break or become loose from the chassis, which may increase the risk of a crash.

WHAT ARE WE DOING ABOUT THE PROBLEM?

To correct this condition, Xtreme Outdoors provide inspections of the axle mounting hardware to ensure that the hardware has been torqued within the required specification, 125 — 175 ft.-lbs. At your earliest convenience, you should contact your nearest Xtreme Outdoors dealer to arrange an inspection. The inspections and, as necessary, the tightening of the mounting hardware will be done free of charge. The inspection and repair will take approximately 0.5 – 1.0 hours.

Federal law requires vehicle lessors receiving this recall notice to forward a copy to the lessee within ten days. Also, it is a violation of Federal law for a dealer to deliver a new trailer covered by this recall notice under a sale or lease until the noncompliance has been remedied.
