October 18th, 2022
Harley-Davidson Recall No. 0179
NHTSA Recall No. 22V745

Dear Harley-Davidson® Motorcycle Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Harley-Davidson Motor Company, Inc. has decided that a defect which relates to motor vehicle safety exists in certain model year 2022 RH975 Nightster motorcycles. We are notifying you because our records indicate that you may own one of these motorcycles.

What is the Issue?

The handlebar (P/N 55801154) on certain Model Year 2022 RH975 Nightster motorcycles, built between 08/24/21 and 08/18/22, may not have been welded properly between the inner and outer sections and may break. A broken handlebar could lead to a loss of steering control and an increased risk of a crash if this occurs while riding.

What Should You Do?

Please contact your authorized Harley-Davidson motorcycle dealer immediately and arrange an appointment to have your motorcycle repaired. Recall kits that include a new handlebar are expected to begin shipping to authorized Harley-Davidson dealers the week of October 24th. To schedule an appointment to have your motorcycle repaired, please contact your Harley-Davidson dealer. The repair will be performed at no cost to you and should take less than one hour. However, due to scheduling, the dealer may require your motorcycle for a longer period. Once the service has been completed, your dealer will ask you to sign a recall claim.

If you have sold your motorcycle and have an address for the current owner, it is important that you forward this notice to the new owner. Alternatively, you may contact us at the Harley- Davidson phone numbers listed below and provide us with the new contact information so that we may notify the new owner of this recall. Also, federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten (10) days.
