**Subject: Safety Recall 90V2 – Gateway Control Module**

Dear Audi Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Audi has decided that a defect, which relates to motor vehicle safety, exists in certain 2019-2022 model year Audi vehicles. Our records show that you are the owner of a vehicle affected by this action.

Audi of America, Inc.  
3800 Hamlin Road

**What is the issue?** If liquid reaches and enters the gateway control module located under the rear middle seat, usually due to a liquid spill on the rear seats, it is being switched off as part of the safety concept. Water/liquid ingress into the gateway control module may lead to various internal errors due to short circuits within the control unit.

The gateway control module has a safety concept in case implausible signals are detected in the control unit. If such implausible signals are detected, the gateway switches off its function in order to avoid unwanted vehicle reactions. The vehicle remains steerable and the brake system is fully operable. The engine goes into emergency mode and remains in operation with reduced power.

Unexpected reduced engine power may create an increased risk of a crash in certain driving situations.

**What will we do?** To correct this defect, your authorized Audi dealer will install a protective cover for the gateway control module which will protect the part from liquid ingress. This work will take about an hour to complete and will be performed for you free of charge. Please keep in mind that your dealer may need additional time for the preparation of the repair, as well as to accommodate their daily workshop schedule.

**What should you do?** Please contact your authorized Audi dealer without delay to schedule this recall work. For your convenience, you can also visit [www.audiusa.com](http://www.audiusa.com) and click on the “Find a Dealer” link to locate a dealer near you and schedule this service.

**Precautions you should take** Several warning messages will appear if the gateway control module shuts down. The error messages occur due to the interrupted communication between several systems. Even though several systems are displaying a malfunction, not all of these systems are impacted.

## IMPORTANT SAFETY RECALL

Customers seeing error messages are advised to make arrangements to have the vehicle diagnosed/repared by an authorized Audi dealer without delay.

**Lease vehicles and address changes**

If you are the lessor and registered owner of the vehicle identified in this action, the law requires you to forward this letter immediately via first-class mail to the lessee within ten (10) days of receipt. If you have changed your address or sold the vehicle, please fill out the enclosed prepaid Owner Reply card and mail it to us so we can update our records.

**Can we assist you further?**
