NHTSA Recall No: 22V-895

Dear Tesla Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Tesla, Inc. has decided that a defect, which relates to motor vehicle safety exists in certain Model Year 2023 Model Y vehicles. Our records show that you are the owner of a vehicle affected by this action.

REASON FOR THIS RECALL

The front suspension lateral link bolts may not have been secured to the correct specifications. This could cause the fasteners to loosen over time, which could cause the lateral link to separate from the sub-frame. If the fasteners become loose, a lateral link separation could shift the wheel alignment, causing instability and increasing the risk of a crash.

WHAT TESLA WILL DO

At no charge to you, Tesla Service will tighten or replace the lateral link fasteners as necessary. Tesla Service will also replace lateral links or other components damaged due to this issue if any, free of charge
