Dear Valued Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Jayco Inc. has decided that a defect, which relates to motor vehicle safety, exists in certain model year 2022 White Hawk travel trailers.

This is a follow up to a previous letter we mailed in May 2022 regarding this recall. Our records show that this recall has not been completed on your vehicle.

Reason for this recall The 50 Amp shore power inlet lug bolts may have been manufactured with excessively hard metal, preventing them from being tightened properly and resulting in a loose wiring connection. Loose wiring can cause an electrical short, increasing the risk of a fire.

Recall Remedy Remedy consists of replacement of the 50 Amp shore power inlet. The remedy is free of charge and will take approximately 15 minutes to complete.

What we need you to do Please contact a Jayco certified repair facility and schedule an appointment for this remedy.

If you had this repair completed prior to receipt of this recall notice, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this recall. Submit an email to service@jayco.com including your name, address, VIN, recall number, and a clear, legible receipt showing the identification of the product that was recalled.
