Awning Inspection and Weld/Seam Repair

This is a reminder that your Vanleigh RV has an open safety recall. If this recall does not apply or has already been completed, please email recalls@tiffinmotorhomes.com.

Dear Vanleigh RV Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Vanleigh RV has decided that a defect, which relates to motor vehicle safety, exists in certain 2022 **Beacon and Vilano 5th wheel RVs built between May 18, 2022, and July 21, 2022.**

Vanleigh RV was notified by Lippert Components, Inc that a defect may exist on certain electric retractable awnings up to 18' in length. Lippert Components supplied Vanleigh RV certain 6' and 15' awnings that were installed on a limited number of 5th wheel RV's. These certain awnings may have a welded seam at the fabric to coach interface that can separate. If the seam were to separate, the fabric could detach from the coach rail and remain attached to the awning frame. This could allow the awning to drop and extend beyond normal operation and may cause a crash or injury. Owners may be alerted to a problem by a visible partial weld separation at the ends of the awning roll along the coach body.

Vanleigh RV will have the involved awning inspected and if the defect exists, the awning will be repaired or replaced as needed. Please allow up to 30 minutes for the inspection to be completed. If a defect is found, please be aware that more time may be needed, up to an additional 1 hour and 30 minutes. This work will be completed at no charge to you, the owner.

Please take your 5th wheel recreational vehicle to a reputable service center **OR** dealer of **your** choice to have this repair made. A list of Tiffin Motorhomes authorized dealers is available online at <https://tiffinmotorhomes.com/service-center-locations>.
