Dear Tiffin Motorhome Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Tiffin Motorhomes has decided that a defect, which relates to motor vehicle safety, exists in certain **2022 and 2023 Allegro Breeze, 2022 and 2023 Allegro Bus, 2022 and 2023 Phaeton, and 2022 Zephyr Motorhomes, all built on Tiffin Motorhome's PowerGlide Chassis.**

Tiffin Motorhomes has become aware of the possibility that on these motorhomes, the chassis 150-amp circuit breakers may overheat and trip. If this were to happen, the chassis would lose power and the driver's dash display would go blank. If the chassis were to lose power, this would increase the risk of a crash. Tiffin Motorhomes will have the circuit breakers inspected and if they are found to be defective, they will be replaced with new updated circuit breakers.

Owners may be alerted to the recall by visually inspecting the circuit breakers located in the last passenger side compartment of the motorhome. Circuit breakers with a yellow arm (figure 1) are good and circuit breakers with a red arm (figure 2) will need to be replaced. If the circuit breakers in the motorhome are good, please email [recalls@tiffinmotorhomes.com](mailto:recalls@tiffinmotorhomes.com) with your VIN and name and the recall will be cleared from the motorhome.
