First Name Last Name,

Our records currently indicate you have not had recall I-19-02-A completed on your affected vehicle.

Indian Motorcycle has determined that certain model year 2014-2020 (111 c.i. or 116 c.i. Heavyweight Air Cooled) motorcycles may experience loss of forward lighting. If this event does occur, the High Beam indicator will flash on the gauge cluster. If the motorcycle lighting malfunctions while in operation, it may reduce visibility and increase the risk of a crash.

If you need assistance contacting or locating an Indian Motorcycle dealer, visit <https://www.indianmotorcycle.com/en-us/dealer-locator/>.

THIS WORK WILL BE PERFORMED BY YOUR DEALER AT NO COST TO YOU!
