

# 22PBC ABS Telltale not Enabled NHTSA #22V424, TC #2022-314

 [Edit](#)  [Clone](#)

---

## Number

22PBC

---

## Description

22PBC ABS Telltale not Enabled NHTSA #22V424, TC #2022-314

---

## Date

7/8/2022

---

## What's New

**Non-Compliance Recall** - The ABS telltale was not enabled on certain vehicles, so the ABS telltale would never illuminate on affected vehicles, even in the event of an ABS malfunction.

This is non-compliant with US regulation FMVSS 105 and Canadian Regulation CMVSS 105, which requires an indicator lamp for antilock brake system malfunction.

---

## Introduction

ABS Telltale / Warning message on digital dash does not illuminate during self-test. ABS Telltale / Warning message will also not illuminate during an ABS fault or malfunction.

---

## Situation

4 (1 US / 3 Canada) Model Year 2020 through 2023, 536 and 537 chassis built from November of 2019 through January of 2022 equipped with hydraulic brakes.

---

## Resolution

### **Non-Compliance Recall**

This bulletin will be updated when the repair procedure and parts are available.

---

## Federal Law

It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.
