This notice applies to your Hyundai, VIN: XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect, which relates to motor vehicle safety, exists in certain 2013–2014 Sonata vehicles. Your vehicle, with the VIN shown above, is among the impacted vehicles. Hyundai is initiating a safety recall to repair a condition involving the fuel delivery system in the U.S. and Canada.

The purpose of this letter is to explain what the recall is about and to keep you informed of Hyundai's recall implementation plan. We are currently preparing to implement the safety recall remedy which when available, will be performed at no cost to you. We will send you another notification when the remedy is available.

What is the problem?

The fuel hose connecting the low-pressure fuel pump to the direct injection fuel pump could crack over time from the heat in the engine compartment. A damaged fuel hose could result in a fuel leak, increasing the risk of an engine compartment fire.

What should you do in the interim?

We appreciate your patience. Hyundai is currently preparing to implement the recall remedy. You will receive a second notification letter when the remedy is available. For updated information regarding this recall, please visit:
