This notice applies to your Hyundai, VIN: XXXXXXXXXXXXXXXXXXXX

Dear <FirstName LastName,>

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Hyundai has decided that a defect, which relates to motor vehicle safety, exists in certain 2020 – 2022 Accent, 2021 – 2022 Elantra, 2021 – 2022 Elantra HEV vehicles. Your vehicle, with the VIN shown above, is among the impacted vehicles. Hyundai is initiating a safety recall to repair a condition involving the front seat belt pretensioner in the U.S. and Canada.

The purpose of this letter is to explain what the recall is about and to keep you informed of Hyundai's recall implementation plan. We are currently preparing to implement the safety recall remedy which when available, will be performed at no cost to you. We will send you another notification when the remedy is available.

What is the problem?

The front seat belt pretensioner may deploy abnormally in the subject vehicles, causing the MGG (Micro Gas Generator) to detach from the assembly. An abnormal pyrotechnic pretensioner deployment could cause the pretensioner to explode, and project metal fragments into the vehicle occupant compartment, which may result in injury to vehicle occupants.

What should you do in the interim?

We appreciate your patience. Hyundai is currently preparing to implement the recall remedy. You will receive a second notification letter when the remedy is available. For updated information regarding this recall, please visit:
