

IMPORTANT SAFETY RECALL

September 2022

This notice applies to your vehicle, **VIN:** _____

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2021 – 2022 model year Cadillac Escalade and Escalade ESV vehicles, 2021 – 2022 model year Chevrolet Suburban and Tahoe vehicles, and 2021 – 2022 model year GMC Yukon and Yukon XL vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your vehicle is involved in GM safety recall N222372380.
- **As a precaution, do not allow passengers to use the third-row seating positions in your vehicle until your GM performs the recall inspection procedure.**

Why is your vehicle being recalled?

In certain of these vehicles, the rivet that retains the buckle to the mounting bracket in the left or right side third-row seatbelt buckle assembly may not have been properly formed during the manufacturing process. If the third-row seatbelt assembly is not properly riveted, it may not properly restrain occupants in a crash, increasing the risk of injury.

What will we do?

Parts to repair your vehicle are not currently available, but when parts are available, your GM will inspect the rivet head formation on both the left and right side third row seatbelt buckle assemblies and replace seatbelt buckle assemblies as necessary. This service will be performed for you at **no charge**.

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.

Division	Number	Text Telephones (TTY)
Cadillac	1-866-982-2339	1-800-833-2622
