IMPORTANT SAFETY RECALL (Interim Notice)

**Certain 2022 through 2023 Model Year Porsche 911 Vehicles
Porsche Recall ANB7 / NHTSA ID 22V 897**

Dear Mr [REDACTED]:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Porsche has decided that a defect, which relates to motor vehicle safety, exists in certain 2022 to 2023 Model Year Porsche 911 Vehicles.

What is the issue?

On affected vehicles the leather dashboard cover may not meet production specifications. In the event of a passenger airbag deployment, there is the possibility that the console of the dashboard may break and separate. This could impair proper front passenger air bag deployment, and increase the risk of an injury to the front passenger seat occupant.

What will Porsche do?

To help prevent this issue from occurring, Porsche is conducting a safety recall to replace the dashboard on affected vehicles, free of charge. This repair should take approximately 1 day to complete, however, it may be necessary to make your vehicle available to your dealer for a longer period of time. Your Porsche dealer will arrange for alternate transportation if necessary.

What should you do?

You can continue to use your vehicle until the remedy has been carried out.

Porsche recommends, out of an abundance of caution, not to drive your vehicle with passengers in the front passenger seat until the remedy is performed.

Please wait for our follow up letter to bring your vehicle into a dealer for a remedy.
