

**2022MY Telluride and Sorento
Incorrect Spare Tire Installation
FMVSS 110 Noncompliance Basis of Safety Defect Determination 573.6(c)(6)**

June 22, 2022	Kia Georgia (KaGA) identifies incorrect spare tire on a 2022MY Telluride vehicle during its post-assembly vehicle inspection process.
June 23, 2022	KaGA begins plant vehicle stock inspection and internal investigation to identify vehicles that may have been equipped with an incorrect size spare tire.
June 28, 2022	<p>KaGA notifies Kia North America Product Quality (Kia NA PQ) of the issue and identifies eight (8) vehicles, including three 2022MY Telluride and five 2022MY Sorento, have been shipped to U.S. Kia dealers that may be equipped with an incorrect size spare tire.</p> <p>Kia NA PQ notifies Kia NA Safety Office.</p>
July 11, 2022	Kia NA evaluates potential noncompliance with the Federal Motor Vehicle Safety Standards (FMVSS) and concludes the difference between the spare tire's actual size and the spare tire size information on the tire placard violates Federal Motor Vehicle Safety Standard 110, §S4.3.
July 12, 2022	Kia NA decides to conduct a FMVSS 110 noncompliance recall. No customer complaints, techline cases or warranty claims. No fatalities, injuries, crashes or fires.
