1234 STREET NAME
CITY, STATE, ZIP
(XXX)XXX-XXXX

Why your vehicle needs this FREE recall repair

In these vehicles, the secondary hood latch lever may prematurely corrode at the pivot. If severely corroded, the secondary latch striker may become stuck out of position and fail to properly engage. If the striker becomes stuck out of position and both the primary and secondary hood latch fail to engage, the vehicle's hood may open unexpectedly, increasing the risk of a crash.

Scheduling your repair is quick and easy

Contact your Chevrolet dealer to schedule your **FREE** recall repair as soon as possible. Visit [chevrolet.com/dealer](#) or call **1-866-467-9700**. If you are an EV owner, please contact a Chevrolet EV Certified Dealer at **1-833-382-4389**.

No longer own this vehicle?

If you no longer own this vehicle or someone else drives it, please update your info so we can contact the correct person with this important notice. Click [here](#) to update your information.

Sincerely,

Regina Carto, Vice President, Global Product Safety & Systems

Because there is an open safety recall on the above vehicle(s), it's critical that we continue to attempt to contact the registered owner to have the recall repaired. For this reason, we do not remove an owner from our POSTAL MAILING list until the vehicle registration information is updated via state registration authority (i.e., Department of Motor Vehicles or Secretary of State).
