### Update Detail Screen Text:

- Important Update for GM Recall No. N22-2386380
- This important update corrects a condition in the vehicle's body control module software that can, under certain circumstances, cause the daytime running lamps to fail to deactivate when the headlamps are on. This update will complete the remedy for GM Recall No. N222386380. You will receive a letter providing additional details regarding this issue.
- During the update process, your radio may stay on up to 5 minutes after you exit the vehicle. This is expected behavior when an update package is onboard the vehicle. Do not service your vehicle during installation.
- Install time: 5 mins  
The vehicle will need to remain parked and turned off during the update
