Alexis Fire Equipment Company  
109 E Broadway Ave  
PO Box 549  
ALEXIS, IL 61412

NEF-107MR  
23V-190

**Subject:** Corrosion on Remote Control Circuit Board

Dear Mr. Morris:

This letter serves to acknowledge Alexis Fire Equipment Company's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

**Makes/Models/Model Years:**

ALEXIS FIRE EQUIPMENT/FIRE APPARATUS/2022

**Mfr's Report Date:** March 22, 2023

**NHTSA Campaign Number:** 23V-190

**Components:**

ELECTRICAL SYSTEM  
EQUIPMENT:MECHANICAL:WINCH

**Potential Number of Units Affected:** 3

**Problem Description:**

Alexis Fire Equipment Company (Alexis Fire) is recalling certain 2022 Emergency Utility, Flatbed Brush, and 300 Gallon Mini Pumper Fire Apparatus vehicles, equipped with a Warn Winch and a wireless handheld remote. Water may enter the handheld remote control for the winch and cause circuit board corrosion, which can allow the winch to operate unintentionally.

**Consequence:**

A winch that operates unintentionally increases the risk of injury.

**Remedy:**

Alexis Fire will work with Warn Industries, Inc. to provide owners instructions on how to inspect the remote for corrosion and disable the wireless function by removing the battery pack from the remote. If corrosion or water intrusion is found when removing the battery pack owners should stop using the remote and contact WARN customer service for a replacement remote, free of charge. Once new parts are available, WARN will make a replacement water resistant remote available, free of charge. Owner notification letters are expected to be mailed April 3, 2023. Owners may contact Alexis Fire customer service at 1-309-482-6121.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.nhtsa.gov](http://www.nhtsa.gov).

We have received Alexis Fire's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in 49 U.S.C. § 30118(f), submission of 8 consecutive quarterly reports is required. As described in 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Alexis Fire Equipment Company's contact for this recall will be Michelle Rice who may be reached by email at michelle.rice@dot.gov. We look forward to working with you.

Sincerely,

Alex Ansley  
Chief, Recall Management Division  
Office of Defects Investigation  
Enforcement
