Subject: Improperly Sealed Driver Side Cowl Area

Dear Mr. Swindell:

This letter serves to acknowledge Nissan North America, Inc.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years: NISSAN/SENTRA/2022

Mfr's Report Date: June 12, 2023

NHTSA Campaign Number: 23V-421

**Components:** STRUCTURE:BODY

Potential Number of Units Affected: 230

## **Problem Description:**

Nissan North America, Inc. (Nissan) is recalling certain 2022 Sentra vehicles. The driver's side cowl area may have a missing or improper seal, which can allow water to leak inside the vehicle and corrode electrical components.

## **Consequence:**

Corrosion of the electrical components could result in failure of various electrical systems, such as loss of wiper motor function or exterior lighting, inoperative air bags, or the ability to shift into gear without applying the brake pedal. Any of these scenarios can increase the risk of a crash. In addition, an electrical short-circuit may occur, increasing the risk of a fire.

## **Remedy:**

Dealers will inspect and, if necessary, reseal the driver's side cowl. If moisture or corrosion is found, the main harness and engine room harness will be replaced. Repairs will be performed free of charge. Owner notification letters are expected to be mailed July 26, 2023. Owners may contact Nissan's customer service at 1-800-867-7669.

## Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.nhtsa.gov.
