Description of Defect :

Description of the Defect : During the compound mixing process for tire's base tread layer, certain chemicals were not included thereby preventing proper curing of the tread base layer. If improper curing occurs, the tread can detach increasing the risk of a crash.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : Detachment of the tread increases the risk of crash.

Description of the Cause : Improper curing as a result of missing chemicals.

Identification of Any Warning : Vibration in the seat, vibration in the steering wheel and/or increased noise that can Occur : coming from the affected tire(s).

Involved Components :

Component Name : Tire Tread Base Layer

Component Description : Tire Tread Base Layer

Component Part Number : NR

Supplier Identification :**Component Manufacturer**

Name : Sentury Tire Thailand

Address : 888 1Moo2 T. Samnakthomg

A. Muang Rayong, Rayong 21100 Foreign States 21100

Country : Thailand

Chronology :

October 23, 2023: Sentury Tire USA receives report from retail customer of tire failure incident involving the 235//60R18 107V Mohave Crossover tire. Sentury Tire USA informs Sentury Tire Thailand of incident for further evaluation.

October 24, 2023-November 7, 2023: Sentury Tire Thailand conducts internal investigation into potential cause tire failure and identifies certain tires with DOT week code 1723 may not have properly cured due to missing chemicals during the compound missing process for the tire's base tread layer.

November 7, 2023: Sentury Tire Thailand makes decision to conduct recall all tires manufactured DOT week code 1723.

Description of Remedy :

Description of Remedy Program : Sentury will contact registered customers that purchased tires of the specified date range by first class mail. For those customers who did not register their tires, Sentury will work with independent dealers or distributors to obtain owner information, where available. Customer correspondence will explain the issue, and include instructions on how to obtain replacement tires, as well as instructions for collecting reimbursement for remedies made prior to the recall. Customers who have had their tires replaced before this recall may be eligible to receive reimbursement for the cost of obtaining a pre notification remedy of the problem associated with this recall. Dealers performing the replacement of recalled tires will be notified of their responsibilities in accordance with 49 CFR part 573.6 c 9. Dealers will be instructed to return recalled tires directly to Sentury Tires USA.

How Remedy Component Differs from Recalled Component : The remedy component is a tire that has a properly cured tread base layer.

Identify How/When Recall Condition was Corrected in Production : Operators were re-trained and are following the specification.

Recall Schedule :

Description of Recall Schedule : Tire owner notification letters will be mailed as soon as NHTSA approval is received but in no case later than 60 days from November 8, 2023.

Planned Dealer Notification Date : NOV 17, 2023 - DEC 01, 2023

Planned Owner Notification Date : DEC 15, 2023 - DEC 29, 2023
