Chronology :

During a Sales Call in April involving a walk-around of a recent production 40 ft Chassis with a potential new Customer, it was brought to Fontaine's attention that the unit may not be in compliance with FMVSS 108 Reflector requirements. Subsequent review of "like" units located at the Fontaine facility confirmed that the red Reflex Reflectors on the rear corners had been omitted during production of the units.

Description of Remedy :

Description of Remedy Program : Fontaine will supply all affected customers with 4 red Reflex Reflectors per unit to correct the units in their possession. Fontaine will cover all costs associated with making the vehicles compliant per FMVSS 108 requirements.

How Remedy Component Differs from Recalled Component : The remedy will involve installing red Reflex Reflectors that were omitted during production.

Identify How/When Recall Condition was Corrected in Production : The production personnel, quality personnel and Production Supervisors were re-trained on FMVSS 108 requirements to prevent future mishaps.

Recall Schedule :

Description of Recall Schedule : Fontaine will solicit the customer sites that need to have product provided and will supply needed product in quantities adequate to service the customer sites. Fontaine has inventory on hand to service the affected units.
