Description of the Safety Risk : Potential of air loss to braking system which could cause an accident

Description of the Cause : NR

Identification of Any Warning that can Occur : NR

Involved Components :

Component Name 1 : Brake hose's

Component Description : NR

Component Part Number : NR

Component Name 2 : Air tank fasteners

Component Description : NR

Component Part Number : NR

Supplier Identification :

Component Manufacturer

Name : NR

Address : NR

NR

Country : NR

Chronology :

Received report from customer that they had a concern with a unit on June 1, 2023. All units were placed on hold from shipping from our facility on June 1, 2023. Started investigation with units at our facility and found similar results as customer.

Description of Remedy :

Description of Remedy Program : Replace brake hoses with correct length. Inspect and install any inadequate air tank fasteners. Stoughton Trailers will provide replacement parts and reimburse all labor associated with making necessary repair. Reimbursement will be covered under the manufacturer's warranty program.

How Remedy Component Differs from Recalled Component : Longer length hose to prevent premature failure

Identify How/When Recall Condition was Corrected in Production : Production was paused and all units were placed on hold, June 6, 2023. Correct hose length will be installed when supply is received. Air tank fasteners will be confirmed and corrected if required. No units will ship until repaired.
