

# Part 573 Safety Recall Report

# 23V-614

**Manufacturer Name :** Airstream, Inc.**Submission Date :** SEP 01, 2023**NHTSA Recall No. :** 23V-614**Manufacturer Recall No. :** NR**Manufacturer Information :**

Manufacturer Name : Airstream, Inc.

Address : 419 West Pike Street  
PO Box 629 Jackson Center OH  
45334-0629

Company phone : 937-596-6111

**Population :**

Number of potentially involved : 58

Estimated percentage with defect : 100 %

**Vehicle Information :**

Vehicle 1 : 2021-2023 Airstream 16' Basecam &amp; 20' Basecamp

Vehicle Type : TRAILERS

Body Style : UNKNOWN

Power Train : NR

**Descriptive Information :** The affected models were manufactured without a rooftop mounted air conditioner installed. These units are built with a 12-gauge wire installed for future air conditioner installation.

Production Dates : JAN 01, 2021 - JAN 05, 2023

VIN Range 1 : Begin : 1SMG4DD26MJ204885 End : 1SMG4DD25PJ20846  Not sequential**Description of Defect :**

**Description of the Defect :** The Basecamp trailers manufactured without the roof mounted air conditioner installed, has a 12 gauge wire is run for future air conditioner installation. Code requires this wire to be capped and terminated inside of a junction box. This wire was capped using a Wago connector but not terminated inside of a junction box.

FMVSS 1 : NR

FMVSS 2 : NR

**Description of the Safety Risk :** If the air conditioner "prep wire" were to separate from the Wago connector, there is a potential of a "hot skin" scenario. This increases the risk of personal injury and/or property damage.

**Description of the Cause :** A personal change occurred and this requirement was not properly communicated.

**Identification of Any Warning that can Occur :** None

## Involved Components :

Component Name 1 : Junction Box

Component Description : Junction Device, Self Contained

Component Part Number : 512025-01

## Supplier Identification :

### Component Manufacturer

Name : NR

Address : NR

NR

Country : NR

## Chronology :

8/23/2023 - Airstream identifies the "prep wire" defect during an audit.

8/24/2023 - Airstream begins an investigation.

8/25/2023 - The origin for this defect is determined.

8/28/2023 - The safety committee meets and reviews all known data and determines a recall is warranted.

Airstream is unaware of any warranty or injury claims due to this issue.

## Description of Remedy :

Description of Remedy Program : Dealers will be instructed to remove the wire from the circuit breaker and power converter. This will be done at no cost to the owner.

How Remedy Component Differs from Recalled Component : Any Basecamp trailer manufactured without the roof mounted air conditioner installed after 8/24/2023 has the "prep wire" properly capped and terminated inside of a junction box.

Identify How/When Recall Condition was Corrected in Production : The condition was corrected when production re-implemented the installation of the junction box for the air conditioner "prep wire" for Basecamps manufactured without the optional rooftop air conditioner.

## Recall Schedule :

Description of Recall Schedule : Airstream will send dealer and owner notification letters once approved by NHTSA.

Planned Dealer Notification Date : OCT 31, 2023 - OCT 31, 2023

Planned Owner Notification Date : OCT 31, 2023 - OCT 31, 2023

\* NR - Not Reported
