VIA EMAIL

Dear 3M Transportation Safety Division Product Distributor:

This letter is to notify you that 3M Transportation Safety Division (TSD) recently received testing which indicates that the 3M™ Flexible Prismatic Conspicuity Tape Series 913 products listed in the table below do not fully conform to FMVSS 108 photometry requirements in S.14.2.3 and table XVI-c for retroreflective sheeting (the “Affected Products”). Therefore, 3M TSD is discontinuing the manufacturing and distribution of 913-72 Red. In addition, 3M TSD is discontinuing the complementary product 913-10 White. We recommend customers stop using the Affected Products for Class 8 Vehicle marking applications. No other areas of concern were noted in the report.

Based on the report, the products listed below should no longer be used for Class 8 Vehicle marking applications:

Product Number	Product Color
913-72	Red
913-10	White

To address this situation, TSD is discontinuing sales of the 913-72 red and 913-10 white sheeting products.

If you have inventory of 913-72 or 913-10 marked products for Class 8 vehicle marking, please remove them from your inventory. In addition, please review your website for any collateral or verbiage that relates to 3M™ Flexible Prismatic Conspicuity Tape Series 913 for Class 8 Vehicle marking applications. We ask that you remove any material or verbiage you may have on your website related to the markings. Please contact your 3M Representative to return Affected Products for full credit or call 1-800-553-1380, option 1 with any questions.

The attached notice provides instructions for end users as well as contact information if customers have any questions or concerns. Thank you in advance for your support and cooperation in reaching your customers with this information.

We apologize for any inconvenience this situation may have caused. We hope you can appreciate how important it is to maintain your confidence in the safety and performance of 3M conspicuity products.

Kind Regards,

Julie Seputis

Quality and Product Integrity Manager
3M Transportation Safety Division
